The Honorable James S. Gilmore, III
Governor of the Commonwealth of Virginia
State Capitol
Richmond, Virginia 23219

William E. Landside, CPA
Comptroller
Post Office Box 1971
Richmond, Virginia 23218

Dear Governor Gilmore:

It is my pleasure to present the Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2000, in accordance with Section 2.1-207 of the *Code of Virginia*.

This report reflects my commitment to you, to the citizens of the Commonwealth, and to the financial community to maintain our financial statements in conformance with generally accepted accounting principles (GAAP) as established by the Governmental Accounting Standards Board (GASB). Data presented in this report is believed to be accurate in all material respects, and all disclosures that are necessary to enable the reader to obtain a thorough understanding of the Commonwealth's financial activities have been included.

The 2000 Comprehensive Annual Financial Report is presented in three sections. The Introductory Section includes a financial overview, discussion of the Virginia economy, and organization charts for State government. The Financial Section includes the State auditor's report, audited general purpose financial statements and notes thereto, and the underlying combining and individual fund financial statements and supporting schedules. The Statistical Section sets forth selected unaudited economic, financial trend, and demographic information for the State on a multi-year basis.

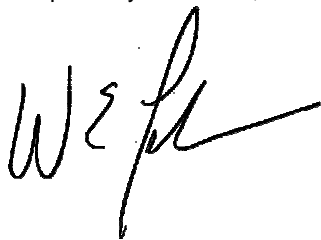

In accordance with Section 2.1-155 of the *Code of Virginia*, the Auditor of Public Accounts has audited the Commonwealth's financial statements for the year ended June 30, 2000. The audit was conducted in accordance with generally accepted auditing standards and Government Auditing Standards issued by the Comptroller General of the United States. The auditor's opinion is included in the Financial Section of this report. Audit testing for compliance with the Federal Single Audit Act Amendments of 1996 and the related OMB Circular A-133 is performed at the statewide level. The Commonwealth's Single Audit Report will be issued at a later date. I would like to acknowledge the Auditor of Public Accounts' staff for their many contributions to the preparation of this report.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to the Commonwealth for its CAFR for the fiscal year ended June 30, 1999. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of State and local government financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report that conforms to program standards. Such reports must satisfy both generally accepted accounting principles and all applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. The Commonwealth has received a Certificate of Achievement for the last fourteen consecutive years (fiscal years 1986-1999). I believe that this year's report continues to conform to the Certificate of Achievement program requirements and we are submitting it to GFOA.

This report could not have been prepared without the full cooperation of all State agencies within the Executive Branch, the Legislature, the Judiciary, the Component Units, and especially the dedication and professionalism of the financial reporting staff in the Department of Accounts.

Respectfully submitted,

A handwritten signature in black ink, appearing to be 'W. E. P.', written in a cursive style.

Comptroller of the Commonwealth of Virginia

Financial Overview

General Fund Condition – Overall

Virginia uses the cash basis of accounting for budgetary purposes. Revenues and expenditures are recorded at the time cash is actually received or disbursed according to the provisions of the Appropriation Act. The budgetary basis financial activity of the General Fund is presented in the General Purpose Financial Statements in the Financial Section. General Fund revenue collections exceeded estimates for the tenth consecutive year.

Figure 1 shows the General Fund ending fund balances on a budgetary basis since fiscal year 1996. All of the \$1,855.3 million ending fund balance at June 30, 2000, was reserved or designated, including \$848.9 million for the Revenue Stabilization Reserve Fund, and \$938.9 million designated for other appropriation or reappropriation in fiscal year 2001.

Figure 2 shows the General Fund ending fund balances since fiscal year 1996, using the GAAP basis of accounting.

General Fund Revenues, Expenditures, and Other Financing Sources (Uses)

Figure 3 presents a detailed analysis of General Fund revenue on a budgetary basis for the year ended June 30, 2000. Prior year data is shown for comparison purposes. The overall revenue increase of 11.2 percent is attributable to favorable Individual Income and Sales and Use tax revenue collections, which reported 12.2 and 6.6 percent increases, respectively. Based on the revenue from income and sales taxes, and in accordance with Article X, Section 8 of the Constitution of Virginia, a \$187.1 million contribution to the Revenue Stabilization Fund is estimated. In accordance with past policy, the deposit resulting from FY 2000 revenues has been designated, to the extent funds are available of \$171.0 million.

Figure 4 shows General Fund expenditures by function on a budgetary basis for the year ended June 30, 2000, as compared to the prior year. Total expenditures and transfers increased by 10.4 percent over the prior year. Most areas experienced increased expenditures. For example, Individual and Family Services increased by 12.0 percent over the prior year, due to increasing health and human resources expenditures. Education increased 5.6 percent over the prior year as the result of increased support for higher education and public schools. Administration of Justice increased by 7.3 percent as a result of adding correctional facility space. General Government increased 36.8 percent over the prior year due to increasing payments to localities for car tax reimbursements.

General Fund Condition - Modified Accrual Basis

Although the Commonwealth budgets and manages its financial affairs using the budgetary basis of accounting, generally accepted accounting principles require that states use the modified accrual basis of accounting to prepare financial statements. The modified accrual basis of accounting recognizes revenues when they become both measurable and available to finance operations throughout the fiscal year or to liquidate liabilities at the end of the fiscal year. Expenditures are recognized when a liability occurs. The accruals recorded on the financial statements for the fiscal year ended June 30, 2000, reflect cash that will not be received or disbursed until fiscal year 2001.

Administration of Justice	1,780,235	1,658,837	7.3	16.1
Capital Projects	40,076	32,557	23.1	0.4
Securities Lending Payments	6,346	6,496	(2.3)	0.1
Total Expenditures	9,107,847	8,296,784	9.8	82.6
Transfers and Other Uses	1,922,554	1,694,763	13.4	17.4
Total Expenditures and Transfers	\$ 11,030,401	\$ 9,991,547	10.4	100.0

Accruals of revenues and expenditures required by the modified accrual basis of accounting resulted in a decrease of \$480.7 million from the \$1,855.3 million budgetary basis General Fund balance (**Figure 5**), as reported in the August 15, 2000, Preliminary Annual Report of the Comptroller.

Proprietary Fund Operations of the Primary Government

Section 58.1-4022(D) of the *Code of Virginia* requires that the State Lottery Department transfer to the General Fund the audited balances of the State Lottery Fund, net of established reserves. The Auditor of Public Accounts has certified \$323.5 million for transfer to the General Fund for fiscal year 2000. Section 3-1.01.G of Chapter 1072, 2000 Acts of Assembly, requires that the Comptroller transfer estimated lottery balances to the General Fund prior to the end of the fiscal year.

(1) This includes Accounts Receivable, Interest Receivable, and Other Taxes Receivable.

(2) This includes Lottery and ABC Profit Transfers, Decrease of Investments to Fair Value which must be recorded in accordance with GASB Statement No. 31, and Due From Other Funds.

(3) This includes Accounts Payable, ABC Profits Due to Localities, Other Payments Due to Localities, Car Tax Refund Payable, and Due To Other Funds.

Debt Administration

Total Outstanding Debt Primary Government June 30, 2000

(Dollars in Thousands) Figure 6

Total Outstanding Debt Component Units June 30, 2000

(Dollars in Thousands) Figure 7

Virginia is one of only nine states in the nation with a “triple A” bond rating for general obligation debt from the three rating agencies: Moody’s Investors Service, Standard & Poor’s Corporation, and Fitch. These ratings reflect the Commonwealth’s long-standing record of sound fiscal management, its diversified economic base, and low debt ratios.

The total debt of the Commonwealth, as of June 30, 2000, was \$13.7 billion. Of that amount, \$4.6 billion (33.0 percent) was tax-supported debt. Debt is considered tax supported if State tax revenues are used or pledged for debt service payments. This includes all debt issued pursuant to Article X, Sections 9(a), 9(b) and 9(c) of the Constitution of Virginia, as well as selected Section 9(d) debt issues and other long-term obligations.

Outstanding general obligation debt backed by the full faith and credit of the Commonwealth totaled \$1.0 billion at June 30, 2000. Included is Section 9(b) debt totaling \$460.4 million for Public Facilities, and \$60.3 million for Transportation Facilities. In 1992, Virginia voters approved general obligation bond referenda authorizing the issuance of \$613 million in new Section 9(b) bonds to fund higher education, State managed mental health institutions, and parks and recreational facility capital projects, improvements, and acquisitions. Of the amount authorized, \$590.1 million has been issued as of December 15, 2000. Principal and interest payments on Public Facilities Section 9(b) debt were one-tenth of one percent of total General Fund expenditures in fiscal year 2000.

The balance of general obligation debt of \$525.5 million, also backed by the full faith and credit of the Commonwealth, consisted of Section 9(c) bonds. Revenue-producing capital projects, primarily auxiliary enterprises of colleges and universities and toll highways, service these bond payments. Holders of Section 9(c) bonds have a legal claim to general tax revenues of the Commonwealth should revenues prove to be insufficient to meet principal and interest payments. Such claims on general tax revenue have not been made.

The remaining \$3.6 billion in tax-supported debt is made up of selected Section 9(d) bonded debt and other long-term obligations. Tax-supported Section 9(d) debt totaling \$2.4 billion includes transportation debt, as well as the Virginia Port Authority, Virginia Public Building Authority, Innovative Technology Authority, Virginia Biotechnology Research Park Authority, and certain Virginia College Building Authority bonds payable. Other tax-supported long-term obligations include capital leases, certain appropriation supported bonds, installment purchases, notes payable, pension liability, and compensated absences.

None of the remaining debt of the Commonwealth, which totals \$9.1 billion, is supported by tax revenues. The Commonwealth has no direct or indirect pledge of tax revenues to fund reserve deficiencies. However, in some cases, the Commonwealth has made a moral obligation pledge to consider funding deficiencies in debt service reserves that may occur. At June 30, 2000, \$2.4 billion, or 24.0 percent, of debt not supported by taxes was considered moral obligation debt.

A detailed summary of all the debt issues may be found in Note 19, as well as in the section entitled “Debt Schedules.”

Investment Policy

The Commonwealth's primary investment objectives are safety of principal, maintenance of needed liquidity, and attaining a market rate of return throughout budgetary and economic cycles. Accordingly, investments are made in compliance with the *Code of Virginia*, with adherence to specific guidelines adopted by the Treasury Board, and with consideration given to the prevailing investment environment.

The general account of the Commonwealth is a pool of investments representing assets of a number of funds, including the general fund, various higher education operating funds, and the Commonwealth Transportation Trust Fund. These monies are invested in a variety of high quality securities including U. S. Treasury and agency securities, corporate debt securities of domestic corporations, asset-backed securities, mortgage-backed securities, AAA-rated dollar obligations of foreign governments, bankers acceptances, negotiable certificates of deposit and bank notes, repurchase agreements, and money market funds. The general account portfolio is divided into two pools, the primary liquidity pool and the total return pool. The primary liquidity pool is internally managed by Treasury staff and is the major source for disbursement requirements and operational needs of the Commonwealth. The objective of the total return pool, which is externally managed, is to generate higher total returns over a market cycle than would be generated by the primary liquidity pool. Treasury's allocation target for the overall general account asset mix is currently 75 percent for the primary liquidity pool and 25 percent for the total return pool. The average daily invested balance (**Figure 8**) for the fiscal year ended June 30, 2000, was \$3.7 billion as compared to the 1999 fiscal year average balance of \$3.4 billion. The net earnings (**Figure 10**) for fiscal year 2000 were \$203.4 million versus fiscal year 1999 earnings of \$191.4 million. The increased earnings were the result of an increase in investment balances. The reduced yield (**Figure 9**) was the result of lower yields on the externally managed total return portfolio as the fixed income market was especially hard hit during the period by six Federal Reserve rate increases totaling 175 basis points.

In addition to the general account of the Commonwealth, the Department of the Treasury manages or sponsors a number of special purpose investment pools and individual customized investment programs. The Local Government Investment Pool (LGIP) is a special purpose money market fund managed by Treasury for the benefit of public entities of the Commonwealth in the investment of their short-term funds. The LGIP enables participants to maximize their return on investments by providing a fund where monies can be commingled for investment purposes in order to realize the economies of large-scale investing and professional funds management. The State Non-Arbitrage Program (SNAP) is a program providing comprehensive investment management, accounting, and arbitrage rebate calculations for proceeds of tax-exempt financings of Virginia bond issuers. The Treasury Board contracts with an outside manager for administration of the SNAP program. The Treasury Board has adopted investment guidelines for both the LGIP and SNAP, authorizing them to invest in certain high-quality, short-term securities appropriate for money market funds. As of June 30, 2000, the LGIP balance was \$1.7 billion and the SNAP program balance was \$1.3 billion.

Risk Management

The Commonwealth maintains self-insurance programs for employee health, general (tort) liability, medical malpractice, workers' compensation, property, and automobile liability insurance. These are reported in the Internal Service Funds. The Commonwealth assumes the full risk for claims filed under the employee health insurance program and the workers' compensation program. For the other programs, the risk assumed is limited to certain amounts per occurrence.

The Commonwealth also provides employee health, errors and omissions liability, commuter rail liability, and law enforcement professional liability insurance for local governmental units throughout the Commonwealth. These programs are accounted for in the Enterprise Funds. Additional information on all risk management programs is presented in Note 18 to the Financial Statements.

Retirement Systems

The Commonwealth provides a variety of retirement plans for its employees. The majority of employees participate in one of the four defined benefit plans administered by the Commonwealth. These defined benefit plans are the Virginia Retirement System, the State Police Officers' Retirement System, the Judicial Retirement System, and the Virginia Law Officers Retirement System. Certain employees may elect to participate in selected defined contribution pension plans. Further information on the state's participation in the retirement systems can be found in Note 12 to the financial statements.

Reporting Entity

For financial reporting purposes, the Commonwealth's reporting entity consists of (1) the primary government, (2) component unit organizations for which the primary government is financially accountable (blended component units), and (3) other component unit organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete (discrete component units). The funds and account groups of all agencies, boards, commissions, foundations, and authorities that have been identified as the primary government or a component unit have been included.

Section 2100 of the *GASB Codification of Governmental Accounting and Financial Reporting Standards* (GASB Codification) describes the criteria for determining which organizations, functions, and activities should be considered part of the Commonwealth for financial reporting purposes. The basic criteria include appointing a voting majority of an organization's governing body, as well as the Commonwealth's ability to impose its will on that organization, or the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Commonwealth.

New Governmental Reporting Model Infrastructure Reporting

On June 30, 1999, the Governmental Accounting Standards Board published GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. The new standard provides a new look and focus for reporting public finance in the United States and will significantly change the way state and local governments report their finances to the public. In addition, GASB Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities*, extends the requirements of GASB Statement No. 34 to include the State's Institutions of Higher Education and the Community College System.

An important aspect of the new standard is the requirement to provide information about infrastructure assets. Infrastructure assets are long-lived capital assets that are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets. Examples of infrastructure include roads, bridges, tunnels, drainage systems, water and sewer systems, dams, and lighting systems. It is expected that the primary focus related to infrastructure will involve the Virginia Department of Transportation. GASB Statement No. 34 requires reporting of infrastructure prospectively beginning with fiscal year 2002 and retroactive reporting of all infrastructure by fiscal year 2006.

The effective date of GASB Statements No. 34 and No. 35 is for fiscal years beginning after June 15, 2001. This means that the Statements would be effective for the Commonwealth for the fiscal year ending June 30, 2002. The Department of Accounts' (DOA) Financial Reporting Section has begun planning for the implementation of Statements No. 34 and No. 35. The plans include:

- Gaining a complete understanding of GASB Statement No. 34 reporting requirements;
- Converting the 1999, 2000, and 2001 Comprehensive Annual Financial Reports to Statement No. 34 format;
- Analyzing the reformatted reports to determine the additional information needed and revising the DOA financial statement directives to obtain the additional information;
- Conducting GASB Statement No. 34 training for state agency personnel;
- Working closely with the Auditor of Public Accounts' staff and the Virginia Department of Transportation to ensure appropriate aggregation and reporting of infrastructure;
- Working closely with the colleges and universities to aid them in conversion to Statements No. 34 and No. 35 format; and
- Obtaining GASB Statement No. 34 training and reviewing the Comprehensive Annual Financial Reports of states and municipalities that implement GASB Statement No. 34 early.

Internal Controls

The Commonwealth's management is responsible for the establishment and maintenance of internal accounting controls that ensure assets are safeguarded and financial transactions are properly recorded and adequately documented. To ensure that the costs of controls do not exceed the benefits obtained, management is required to use estimates and judgments to attain reasonable assurance as to the adequacy of such controls. The Commonwealth's established internal controls fulfill these requirements.

Certain budgetary controls also are maintained to ensure compliance with the legal provisions of the Commonwealth's Appropriation Act, which reflects the General Assembly's approval of a biennial budget. The financial transaction process begins with development and approval of the budget, after which budgetary control is maintained through a formal appropriation and allotment system. The budgeted amounts reflected in the accompanying financial statements represent summaries of agency budgets.

Certificate of Achievement for Excellence in Financial Reporting

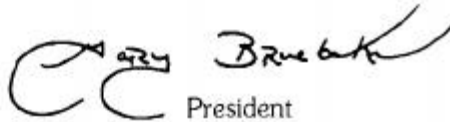

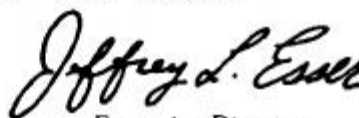

Presented to

Commonwealth of
Virginia

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 1999

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

Executive Director

Virginia Economic Highlights

An economist at the University of Virginia's Weldon Cooper Center for Public Service prepared this review of the Virginia economy. Most of the analysis is based on measures for the past five fiscal years with emphasis on the latest year. In some cases, calendar year (CY) data are used because fiscal year (FY) data were unavailable.

FY 2000 represented another banner year for the national economy as the remarkable expansion after the 1990-91 recession continued. Virginia was a full participant in the buoyant U.S. economy.

The two measures that are the most revealing about economic conditions are employment and income. Virginia's nonagricultural payroll employment grew by 76,100 in FY 2000, a 2.3 percent increase that mirrored the strong national rate (**Figure 15**). Employment growth, although very good, was not as high as in the previous three years when the annual gains ranged from 82,000 to 99,000.

The private services sector accounted for nearly half of the net gain in jobs with the majority in the business services subsector that includes many of the State's high tech jobs. Other sectors that accounted for large numbers of new private jobs were retailing, transportation and public utilities, construction, and finance, insurance, and real estate.

Manufacturing experienced a net loss of 1,400 jobs. Although there were gains in transportation equipment and industries associated with construction, they were more

than offset by losses in the textile and apparel industries that continue to be under pressure from foreign competition. Mining, now a very small industry in Virginia, and mainly accounted for by coal, continued to decline.

In the public sector, the net increase in State government employment was only 200, but at the local level, there was a 7,900 increase. The Federal government, a large employer in Virginia, accounted for a net increase of only 200 jobs. In earlier years the Federal job count decreased. Much of this decline was attributable to a switch in Federal policy from direct employment to contracting, mainly in the private services sector. The Federal job count is restricted to civilian employees. The military continues to be an important part of the economy, mainly in Northern Virginia and the Hampton Roads area. The latest data for military employment are for CY 1998 when the total was 164,865 service personnel. From 1995 to 1998 there was a decline of 10.8 percent, higher than the U.S. decline of 8.5 percent.

Income, the other principal measure of economic conditions, performed well in FY 2000 (**Figure 16**). In the current low inflation environment much of the growth in personal income represents real gains. In FY 2000 Virginia's real personal income grew by 3.6 percent, nearly the same as the national increase of 3.7 percent. Growth in Virginia personal income was very similar to that of the nation for the FY 1995 to FY 2000 period.

Source: Bureau of Economic Analysis

Figure 17
Per Capita Personal Income

Source: Bureau of Economic Analysis

Per capita income is a broad measure of economic welfare. In CY 1999 Virginia's per capita income was \$29,789. This was 104 percent of the national average and gave the Commonwealth a ranking of fourteenth among the 50 states and the District of Columbia. Within the South Atlantic region Virginia ranked fourth among the eight states and the District of Columbia. The District of Columbia, Maryland, and Delaware had higher incomes, while Florida, Georgia, North Carolina, South Carolina, and West Virginia were lower.

In CY 1999 Virginia per capita income rose by 5.1 percent compared to the national average of 4.5 percent (**Figure 17**). This strong performance earned the State a ranking of ninth in percentage growth. Most of the State's gain was attributable to growth in net earnings – the sum of payrolls, other labor income, and proprietors' income less adjustments for social security taxes and place-of-residence.

Figure 18
Unemployment Rate

Source: Bureau of Labor Statistics

The remainder of this brief review covers several other important economic variables – unemployment, population growth, new housing unit permits, and Virginia's state sales and use tax base.

The State's unemployment rate was only 2.7 percent in FY 2000, about the minimum possible after allowing for normal frictional unemployment (**Figure 18**). This was the lowest unemployment rate achieved in the half century for which data are available. Compared to the national average, Virginia's rate was consistently lower. In the last two years the rate was two-thirds of the national rate.

Virginia's population as of July 1999 was 6.9 million, giving it a ranking of twelfth largest among the states. The Old Dominion accounted for 2.5 percent of the national total and since 1995 the annual growth rate exceeded or equaled the national rate in three of the four years (**Figure 19**). In the most recent year Virginia grew by 1.2 percent, compared to 0.9 percent for the nation.

% change		1.0%	1.0%	0.8%	1.2%

Source: Bureau of the Census

The number of permits for privately owned housing units dropped by 7.5 percent in FY 2000 (**Figure 20**). The national figure also declined, but by a lesser percentage (3.1 percent). The recent decline was a poor showing only by the standard of the previous year. The 49,706 permits issued in FY 2000 were the second highest number in the five-year period.

Virginia's state sales and use tax base is a good indicator of retail activity. The tax base includes most retail sales except those of motor fuel and motor vehicles and liquor sales by the State monopoly. In addition, the tax base includes motel and hotel sales, a category not included in national retail sales data. In FY 2000 taxable sales grew by 6 percent in current dollars and 3.7 percent in constant dollars (**Figure 21**). Although real growth was below the 4.6 percent rate achieved in FY 1999, it was still high by historical standards.

In summary, Virginia's economy, like that of the nation, showed solid performance in the first fiscal year of the new millennium. Despite slow growth in the Federal sector and losses in such traditional industries as textiles and apparel manufacturing, the State experienced strong net gains. Virginia is a leader in telecommunications, semiconductors, microelectronics, information technology, medical research and biotechnology, and chemical synthesis research. Dulles International Airport and the Hampton Roads ports are important factors in the State's increasing role as a major exporter. History, mountains, and seashore are a winning combination in attracting foreign and domestic tourist dollars. The Commonwealth has a diverse, growing economy, and it is strategically located on the eastern seaboard—strong pluses as we move into the twenty-first century.

Commonwealth of Virginia

Walter J. Kucharski, Auditor

Auditor of Public Accounts
P.O. Box 1295
Richmond, Virginia 23218

December 13, 2000

The Honorable James S. Gilmore, III
Governor of Virginia
State Capitol
Richmond, Virginia

The Honorable Vincent F. Callahan, Jr.
Chairman, Joint Legislative Audit and Review Commission
General Assembly Building
Richmond, Virginia

We have audited the general purpose financial statements of the Commonwealth of Virginia as of and for the year ended June 30, 2000, as listed in the Table of Contents. These financial statements are the responsibility of management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of certain Component Units - Proprietary Funds of the Commonwealth discussed in Note 1(B) which statements reflect total assets and revenues of \$9,561,078,282 and \$1,477,090,242, respectively, as of and for the year ended June 30, 2000. In addition, we did not audit the financial statements of the State Non-Arbitrage Pool, an investment trust fund, which statements reflect total assets and net investment income of \$1,259,978,507 and \$65,057,883, respectively, as of and for the year ended June 30, 2000. The financial statements of these component units and investment trust fund were audited by other auditors whose reports thereon have been furnished to us and our opinion, insofar as it relates to these amounts included for Component Units - Proprietary Funds and Investment Trust Funds, is based solely upon the reports of the other auditors.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Medical College of Virginia Hospitals Authority and Pocahontas Parkway Association were not audited in accordance with Government Auditing Standards. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provides a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the Commonwealth of Virginia as of June 30, 2000, and the results of its operations and cash flows of its proprietary fund types for the year then ended, in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements. The combining and individual fund and account group financial statements and schedules listed in the Table of Contents are presented for the purpose of additional analysis and are not a required part of the general purpose financial statements of the Commonwealth of Virginia. This information, and not the information in the Introductory and Statistical Sections, has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements of each of the fund types and account groups included in the general purpose financial statements taken as a whole. We express no opinion on the information in the Introductory or Statistical Sections.

Reports on the Commonwealth's internal control and on compliance in accordance with Government Auditing Standards will be issued under separate cover in the Commonwealth of Virginia Single Audit Report.

A handwritten signature in black ink, appearing to read "Walter J. Hrusch". The signature is fluid and cursive, with a large initial "W" and "J".

G. Other Component Units.....	82		

Notes to the Financial Statements

June 30, 2000

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying financial statements have been prepared in conformance with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB) and the Financial Accounting Standards Board (FASB).

B. Reporting Entity

For financial reporting purposes, the Commonwealth's reporting entity consists of (1) the primary government, (2) component unit organizations for which the primary government is financially accountable (blended component units), and (3) other component unit organizations for which the nature and significance of their relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete, and they are financially accountable to the primary government (discrete component units). The funds and account groups of all agencies, boards, commissions, foundations, and authorities that have been identified as part of the primary government or a component unit have been included.

Section 2100 of the *GASB Codification of Governmental Accounting and Financial Reporting Standards* (GASB Codification) describes the criteria for determining which organizations, functions, and activities should be considered part of the Commonwealth of Virginia (the "Commonwealth") for financial reporting purposes. The basic criteria include appointing a voting majority of an organization's governing body and (1) the ability of the Commonwealth to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Commonwealth.

(1) Primary Government – A primary government consists of all the organizations that make up its legal entity. All funds, organizations, institutions, agencies, and departments are, for financial reporting purposes, part of the primary government.

(2) Blended Component Units – Though legally separate entities, these component units are, in substance, part of the primary government's operations. The blended component unit serves or benefits the primary government almost exclusively. Financial information from these units is combined with that of the primary government. Blended component units are:

Pocahontas Parkway Association (Enterprise Funds) – The Association, a private, non-stock, nonprofit corporation was created to develop, construct, and provide financing for the Route 895 Connector Project. The Association is a blended component unit of the Department of Transportation (Primary Government) because it is fiscally dependent on the primary government and provides services entirely to the benefit of the Commonwealth. Ernst & Young, LLP audited the Association, and a separate report is available from the Association, Post Office Box 1320, Richmond, Virginia 23218.

Virginia Historic Preservation Foundation (Enterprise Funds) – The Foundation was created as a body politic and corporate to serve the Department of Historic Resources (Primary Government) by acquiring and holding properties of historical significance. The Governor appoints the seven-member Board, and the primary government is able to impose its will on the Foundation. The Director of the Department of Historic Resources is the Executive Director and controls all administrative duties of the Foundation. A trust agreement between the Board of Trustees of the Foundation, the Department of Historic Resources and the Association for the Preservation of Virginia Antiquities was made as of July 1, 1999. According to the trust agreement, the Foundation transferred the assets to the Association, until January 1, 2003, at which time the agreement may be terminated. The Association's activity is not reported in the accompanying financial statements. The administrative offices of the Foundation are located at 10 Courthouse Avenue, Petersburg, Virginia 23803. The Auditor of Public Accounts audits the Foundation as part of the Department of Historic Resources and discloses its existence in that report.

Virginia State Parks Foundation (Enterprise Funds) – The Foundation was created as a body politic and corporate to serve the Department of Conservation and Recreation (Primary Government) in the duties and responsibilities described in Subtitle I of Title 10.1 of the *Code of Virginia*. The Governor appoints the seven-member Board, and the primary government is able to impose its will on the Foundation. The administrative offices of the Foundation are located at 203 Governor Street, Suite 402, Richmond, Virginia 23219. The Auditor of Public Accounts audits the Foundation as part of the Department of Conservation and Recreation and discloses its existence in that report.

Virginia Public Building Authority (VPBA) (Governmental Funds) – The Authority was created as a body politic and corporate and is fiscally independent. A government instrumentality, the Authority finances the acquisition and construction of buildings for the use of the Commonwealth and other approved purposes. The Governor appoints the seven-member Board, and the primary government is able to impose its will on the Authority. The Auditor of Public Accounts audited the Authority, and a separate report is available from the Department of the Treasury, Post Office Box 1879, Richmond, Virginia 23218.

- (3) **Discrete Component Units** – Discretely presented component units are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the primary government. They are financially accountable to the primary government, or have relationships with the primary government such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. These discrete component units serve or benefit those outside of the primary government. Discretely presented component units are:

Higher Education Institutions (Higher Education Fund) – The Commonwealth's higher education institutions are granted broad corporate powers by State statutes. The Governor appoints the members of each institution's Board of Trustees. In addition to the annual appropriations to support the institutions' operations, the State provides funding for, and construction of, major academic plant facilities for the institutions. Therefore, there is a financial benefit/burden to the primary government. The bonds issued to finance the construction of these facilities are obligations of the State. The Higher Education Institutions are: Christopher Newport University, the College of William & Mary, George Mason University, James Madison University, Longwood College, Mary Washington College, Norfolk State University, Old Dominion University, Radford University, Richard Bland College, University of Virginia, the University of Virginia's College at Wise (formerly reported as Clinch Valley College), Virginia Community College System, Virginia Commonwealth University, Virginia Military Institute, Virginia Polytechnic Institute and State University, Virginia State University, and the Virginia Institute of Marine Science. Also included are the Southwest Virginia Higher Education Center, Roanoke Higher Education Authority, and the University of Virginia Hospital. The colleges and universities are funded through State appropriations, tuition, Federal grants, and private donations and grants. The Auditor of Public Accounts audited the colleges and universities, and individual reports are issued under separate cover.

Complete financial statements for each institution may be obtained from their respective administrative offices. The addresses for these institutions may be obtained from the Virginia Department of Accounts, 101 North 14th Street, Richmond, Virginia 23219.

Innovative Technology Authority (ITA) (Higher Education Fund) – The Authority is granted corporate powers by the *Code of Virginia*. The Authority serves to facilitate the marketing, organization, and development of scientific research and technology by the State's institutions of higher education and private industry in the Commonwealth. The Governor appoints 12 of the 15 Board members, and there is a financial benefit/burden to the primary government. The Authority's combined financial statements include the accounts of the Center for Innovative Technology (CIT) after elimination of all significant intercompany balances and transactions. CIT is a nonstock, not-for-profit corporation, which acts as the operating arm of the Authority. The address for the administrative offices of the Authority is CIT Building, Suite 600, 2114 Rock Hill Road, Herndon, Virginia 22070. The Auditor of Public Accounts audited the Authority, and a separate report is available.

Virginia College Building Authority (VCBA) (Higher Education Fund) – The Authority was created as a public body corporate, a political subdivision, and an agency and instrumentality of the Commonwealth. The Governor appoints a majority of the Board and members serve at his pleasure. Therefore, the primary government is able to impose its will on the Authority. The Authority finances certain capital projects and equipment purchases of State-supported colleges and universities. The Auditor of Public Accounts audited the Authority, and a separate report is available from the Department of the Treasury, Post Office Box 1879, Richmond, Virginia 23218.

Only the activity of the Authority that relates to the financing of capital projects and equipment purchases by State-supported colleges and universities is included in the financial statements. The Authority assists private institutions of higher education in the financing and refinancing of a broad range of facilities. The Authority is authorized to issue obligations and lend the proceeds to private institutions; however, such financings or refinancings are not obligations of the Commonwealth nor the Authority, but are payable solely from the revenues pledged by the respective private institution. This indebtedness, totaling \$273.4 million, is not included in the financial statements.

Other Discrete Component Units

Virginia Economic Development Partnership (VEDP) (Governmental Funds) – The Partnership was created as a corporate body and operates to encourage, stimulate, and support the development and expansion of commerce in the Commonwealth. The Governor appoints the 15 Board members, and there is a financial benefit/burden to the primary government. The administrative offices are located at 901 East Byrd Street, Post Office Box 798, Richmond, Virginia 23218-0798. The Auditor of Public Accounts audited the Partnership, and a separate report is available.

Virginia Tourism Authority (Governmental Funds) – The Authority was created as a public body corporate and as a political subdivision of the Commonwealth. The Authority encourages, stimulates, and promotes tourism and film production industries of the Commonwealth. The Governor appoints the majority of the board, and there is a financial benefit/burden to the primary government. The administrative offices are located at Post Office Box 798, 901 East Byrd Street, Richmond, Virginia 23218-0798. The Auditor of Public Accounts audited the Authority, and a separate report is available.

Virginia Tobacco Settlement Foundation (Governmental Funds) – The Authority was created as a body corporate and as a political subdivision of the Commonwealth. The Foundation was established to determine the appropriate recipients of moneys in the Virginia Tobacco Settlement Fund and to distribute moneys in this fund for such efforts as restricting the use of tobacco products by minors and the enforcement of laws restricting the distribution of tobacco products to minors. The Governor appoints the majority of the board, and there is a financial benefit/burden to the primary government. The administrative offices are located at 701 East Franklin Street, Tenth Floor, Richmond, Virginia, 23219. The Auditor of Public Accounts audited the Authority, and a separate report is available.

Tobacco Indemnification and Community Revitalization Commission (Governmental Funds) – The Authority was created as a body corporate and as a political subdivision of the Commonwealth. The Commission was established to determine the appropriate recipients of the moneys in the Tobacco Indemnification and Community Revitalization Fund. This fund is to provide payments to tobacco farmers as compensation for the adverse economic effects resulting from loss of investment in specialized tobacco equipment and barns, lost tobacco production opportunities, and to revitalize tobacco dependent communities. The Governor appoints the majority of the board, and there is a financial benefit/burden to the primary government. The administrative offices are lo-

cated at 701 East Franklin Street, Suite 1000, Richmond, Virginia 23219. The Auditor of Public Accounts audited the Commission, and a separate report is available.

Virginia Outdoors Foundation (Governmental Funds) – The Foundation was created as a body politic and corporate to serve the Department of Conservation and Recreation (Primary Government) by promoting preservation and raising funds for the purchase of preservation land. The Governor appoints the seven-member Board, and the primary government can impose its will on the Foundation. The Foundation is reported as a Discrete Governmental Component Unit because it uses a GAAP reporting model other than the governmental model. The administrative offices of the Foundation are located at 203 Governor Street, Suite 316, Richmond, Virginia 23219. The Auditor of Public Accounts audited the Foundation, and a separate report is available.

Virginia Schools for the Deaf and Blind Foundation (Governmental Funds) – The Foundation operates as a non-private educational and fund raising organization solely in connection with, and exclusively for the benefit of the Virginia Schools for the Deaf and Blind (Primary Government) and within the jurisdiction and management of the Virginia Board of Education. The Foundation is reported as a Discrete Governmental Component Unit because it uses a cash basis reporting model other than the governmental reporting model. The Foundation uses a December 31 calendar year end. The administrative offices of the Foundation are located at the Virginia Department of Education, 101 North 14th Street, Richmond, Virginia, 23219. The Auditor of Public Accounts audited the Foundation along with the audit of the Department of Education, and a separate report is available.

Virginia Port Authority (VPA) (Governmental and Proprietary Funds) – The Authority was established as a corporate body and operates to serve the citizens and promote commerce. The Governor appoints 11 of the 12 Board members, and the primary government is able to impose its will on the Authority. There is also a financial benefit/burden to the primary government. The administrative offices of the Authority are located at 600 World Trade Center, Norfolk, Virginia 23510. The Auditor of Public Accounts audited the Authority, and a separate report is available.

A. L. Philpott Manufacturing Extension Partnership (Proprietary Funds) – The Partnership has the mission to foster regional economic prosperity by helping small to mid-sized manufacturers recognize and achieve their full market potential. The Partnership provides regional manufacturing firms with technology consulting services, access to business modernization resources, and support for interfirm

collaboration. Further, the Partnership provides direct assistance to increase sales, decrease costs, and improve quality, productivity, and competitiveness. The Partnership has a 17-member Board of Trustees. The Board consists of the presidents of two public four-year institutions of higher education and one private four-year institution of higher education; three community college presidents; the director of Virginia's Center for Innovative Technology; Virginia's Secretary of Commerce and Trade; and nine citizen members appointed by the Governor. There is also a financial benefit/burden to the primary government. The administrative office is located at Patrick Henry Community College, 645 Patriot Avenue, P. O. Box 5311, Martinsville, Virginia 24115. The Auditor of Public Accounts audited the Partnership, and a separate report is available.

Virginia Resources Authority (VRA) (Proprietary Funds) – The Authority was created as a public body corporate, and operates as a political subdivision of the Commonwealth to provide financing for the construction of local water supply and wastewater treatment facilities. The Governor appoints a majority of the 10-member Board and the Executive Director of the Authority. The primary government is able to impose its will on the Authority, and there is a financial benefit/burden to the primary government. The Commonwealth does not guarantee any bonds issued by the Virginia Resources Authority. The administrative offices of the Authority are located at 707 East Main Street, Suite 1350, Richmond, Virginia 23219. Deloitte & Touche, LLP audited the Authority, and a separate report is available.

Small Business Financing Authority (SBFA) (Proprietary Funds) – The Virginia Small Business Financing Act of 1984 (Chapter 28, Title 9, *Code of Virginia*) established the Authority as a public body corporate and a political subdivision of the Commonwealth. The Governor appoints the 10 Board members, and the primary government is able to impose its will on the Authority. The Authority was created to assist small businesses in the Commonwealth in obtaining financing for new businesses or the expansion of existing businesses. The Authority can provide financial assistance to small businesses by providing loans, guarantees, insurance, and other assistance, thereby encouraging the investment of private capital in small businesses in the Commonwealth. Also, the Authority guarantees loans made to small businesses by banks. As of June 30, 2000, the Authority had outstanding loan guarantees totaling \$1,121,163 and had set aside \$900,000 of its total net assets of \$1,088,011 in a guaranty reserve fund to support these guarantees. The administrative offices of the Authority are located at 707 East Main Street, Suite 300, Richmond, Virginia 23219. The Auditor of Public Accounts audited the Authority, and a separate report is available.

Virginia Equine Center Foundation (Proprietary Funds) – The Foundation was created as a body politic and corporate, and operates the Equine Center for the benefit of the equine industry. In 1992, the Commonwealth began making payments on the Equine Center Foundation debt to keep the Center from falling into default. The Governor appoints 10 of the 11 Board members, and there is a financial benefit/burden to the primary government. The address for the administrative offices of the Foundation is Post Office Box 1051, Lexington, Virginia 24450. The accounting firm of William White, Sr., CPA audited the Foundation, and a separate report is available.

Virginia Housing Development Authority (VHDA) (Proprietary Funds) – The Authority was created as a political subdivision and instrumentality of the Commonwealth and is granted both political and corporate powers by the *Code of Virginia*. The Governor appoints a majority of the Authority's Board members. The Commonwealth may make grants to the Authority including, but not limited to, reserve funds, which is a potential financial benefit/burden to the primary government. The State is not obligated by the debt of the Authority. The Authority was created in the public interest to provide investment and stimulate construction of low-moderate income housing which benefits the citizens of the Commonwealth. The administrative offices of the Authority are located at 601 South Belvidere Street, Richmond, Virginia 23220. KPMG Peat Marwick audited the Authority, and a separate report is available.

Virginia Public School Authority (VPSA) (Proprietary Funds) – The Authority was created as a public body corporate, and an agency and instrumentality of the Commonwealth to finance capital projects of city and county school boards. The Governor appoints the Board members, who serve at his pleasure. Therefore, the primary government is able to impose its will on the Authority. Additionally, the Authority receives Literary Fund notes transferred from the State to secure bonds issued by the Authority. The Auditor of Public Accounts audited the Authority, and a separate report is available from the Department of the Treasury, Post Office Box 1879, Richmond, Virginia 23218.

Hampton Roads Sanitation District Commission (Proprietary Funds) – The District was established as a political subdivision of the Commonwealth and a government instrumentality. The Commission, which is the governing Board of the District, was granted corporate powers by the *Code of Virginia*. The Governor appoints the Commission members, who serve at his pleasure. Therefore, the primary government is able to impose its will on the Commission. The Commonwealth is not obligated by the

debt of the Commission. The Commission was established to benefit the inhabitants of the District and operates a sewage system for 13 localities in the Chesapeake Bay area. The address for the administrative offices of the Commission is Post Office Box 5911, Virginia Beach, Virginia 23471. Pricewaterhouse-Coopers, LLP, audited the Commission, and a separate report is available.

Virginia Biotechnology Research Park Authority (Proprietary Funds) – The Authority is a legally separate, political subdivision of the Commonwealth created by the General Assembly to assist in the development of a biotechnology research park. The Governor and General Assembly appoint the Board members of the Authority, and there is a potential financial benefit/burden to the primary government. The administrative offices of the Authority are located at 800 East Leigh Street, Richmond, Virginia 23219. The Auditor of Public Accounts audited the Authority, and a separate report is available.

Medical College of Virginia Hospitals Authority (MCVHA) (Proprietary Funds) – The Authority was created by the *Code of Virginia* and granted corporate powers. The Governor and General Assembly appoint nine of the 16 Board members, and there is a potential financial benefit/burden to the primary government. The Authority was established to operate the Medical College of Virginia Hospitals, which had previously been combined with the Virginia Commonwealth University (Higher Education Fund). The University transferred all assets and liabilities of the Hospitals, except real estate, to the Authority on June 30, 1997. The administrative offices are located at 401 North 12th Street, 2nd Floor, Suite 2-300, Post Office Box 980510, Richmond, Virginia 23298. Ernst & Young, LLP audited the Authority, and a separate report is available.

Wireless E-911 Service Board (Proprietary Funds) – The Board was created as a body politic and corporate and a political subdivision to establish wireless E-911 service in Virginia. The Governor appoints the seven-member Board, and the primary government is able to impose its will on the Board. The administrative offices of the Board are located at the Virginia Department of Accounts, 101 North 14th Street, Richmond, Virginia 23219. The Auditor of Public Accounts audited the Board and a separate report is available.

- (4) **Related Organizations** – Organizations for which a primary government is accountable because that government appoints a majority of the Board, but is not financially accountable, are related organizations. Related organizations are:

Virginia Recreational Facilities Authority – The Authority was created as a political subdivi-

sion and instrumentality of the Commonwealth and given separate corporate powers by the *Code of Virginia*. The Governor appoints the 13 Board members. The Authority operates educational programs, tourism, and commerce in the Roanoke Valley. During the fiscal year ended June 30, 2000, the Authority received a \$500,000 payment from the Commonwealth. The address for the administrative offices of the Authority is 3900 Rutrough Road, Post Office Box 8508, Roanoke, Virginia 24014. Foti, Flynn, Lowen and Company audited the Authority, and a separate report is available.

Allegheny-Highlands Economic Development Authority – The Authority was created as a body corporate and politic, and as a political subdivision of the Commonwealth by the General Assembly. The Governor appoints a majority of the seven-member Board. The Authority was created for the benefit of the citizens of the Commonwealth, particularly those in Allegheny County, Clifton Forge, and Covington, by improving commerce, health and welfare. The address for the administrative offices of the Authority is 450 Main Street Suite 201, Post Office Box 29, Covington, Virginia 24426. Lisa H. Armentrout, CPA, audited the Authority, and a separate report is available.

Miller School of Albemarle – The School was created as an educational institution of the Commonwealth and a corporation to provide a quality education. The Governor appoints a majority of the nine-member Board. The administrative offices of the School are located at 1000 Samuel Miller Loop, Charlottesville, Virginia 22903. Hantzmon, Wieble and Company audited the School, and a separate report is available.

Jamestown-Yorktown Educational Trust – The Trust was created as a nonprofit corporation by the *Code of Virginia* to assist the Jamestown-Yorktown Foundation (Foundation). The Foundation's Board of Trustees controls the Trust. Several Commonwealth officials serve as ex-officio members of the Board, and the Governor appoints twelve members. The Trust operates the Jamestown Settlement and Yorktown Victory Centers' gift shops and café, oversees investing and fund raising activities, purchases artifacts, and sponsors events. The address for the administrative offices of the Trust is Post Office Box 1607, Williamsburg, Virginia 23187-1607. Eggleston, Smith, P.C. audited the Trust, and a separate report is available.

Virginia Birth-Related Neurological Injury Compensation Program – The Program was created to provide a no-fault alternative for birth-related neurological injuries. The Governor appoints the seven-member Board. The administrative offices of the Program are located at 7400 Beaufont Springs Drive, Richmond, Virginia 23225. Goodman and

Company audited the Program, and a separate report is available.

Chesapeake Bay Bridge and Tunnel Commission – The Commission was created to establish policy and administer operations of the Chesapeake Bay Bridge Tunnel District. Any of the eleven members of the Commission appointed or reappointed on or after July 1, 1998, shall be appointed by the Governor, subject to confirmation by each house of the General Assembly. The administrative offices of the Commission are located at Post Office Box 111, 32386 Lankford Highway, Cape Charles, Virginia 23310. PricewaterhouseCoopers, LLP, audited the Commission and a separate report is available.

C. Fund Structure

The accompanying financial statements are presented in four classifications of funds and two account groups. The fund classifications include governmental funds, proprietary funds, fiduciary funds, and the Higher Education Fund (Component Unit). Account groups are presented for general fixed assets and general long-term debt. The fund classifications and a description of each existing fund type and account group follow:

(1) Governmental Funds

Transactions related to the acquisition, use, and balances of the government's expendable financial resources received and used for those services traditionally provided by a State government, which are not accounted for in other funds, are accounted for in governmental funds. The governmental fund measurement focus is based upon determination of financial position (sources, uses, and balances of financial resources), rather than on net income determination. Governmental funds include:

- a. **General Fund** – Accounts for transactions related to resources received and used for those services traditionally provided by a State government, which are not accounted for in any other fund. These services include general government, legislative, public safety, judicial, health and mental health, resources and economic development, licensing and regulation, and primary and secondary education.
- b. **Special Revenue Funds** – Account for transactions related to resources received and used for restricted or specific purposes. The Special Revenue Funds include transactions related to resources used in support of public health services, social service programs, agriculture, State park services, highway maintenance and construction, and other transportation purposes.

- c. **Debt Service Funds** – Account for transactions related to resources retained and used for the payment of interest and principal on those long-term obligations recorded in the General Long-Term Debt Account Group.
- d. **Capital Projects Funds** – Account for transactions related to resources received and used for the acquisition, construction, or improvement of capital facilities not reported in the other governmental or proprietary funds. The primary resource for these funds is the proceeds of bond issues. Principal uses are for construction and improvement of State office buildings, correctional and mental health facilities, and parks.

(2) Proprietary Funds

Transactions related to commercial activities operated by the Commonwealth are accounted for in the proprietary funds. Proprietary funds differ from governmental funds in that their focus is on income measurement, which, together with the maintenance of equity, is an important financial indicator.

The activities comprising the proprietary funds include the following:

- a. **Enterprise Funds** – Account for transactions related to resources received and used for financing self-supporting activities of the Commonwealth that offer products and services on a user-charge basis to the general public.
- b. **Internal Service Funds** – Account for transactions related to the financing and sale of goods or services provided by agencies of the Commonwealth to other agencies and institutions of the Commonwealth. The goods and services furnished are charged to the recipient agency or institution to recover costs through user charges.

(3) Fiduciary Funds

Transactions related to assets held in a trust or agency capacity by the Commonwealth are accounted for in fiduciary funds. The Commonwealth's fiduciary funds include the following:

- a. **Pension Trust Funds** – Account for the transactions of Commonwealth administered retirement systems and post-employment benefits (see Notes 12 and 13, respectively).
- b. **Investment Trust Funds** – Account for the external portions of the State Non-Arbitrage Program and Local Government Investment Pools that are sponsored by the Commonwealth.

- c. **Nonexpendable Trust Funds** – Account for the transactions of the Commonwealth Health Research Fund and Mental Health Endowment Funds whose principal must be maintained intact and whose income is used to benefit the Commonwealth's citizens and mental health patients.
- d. **Expendable Trust Fund** – Accounts for the transactions of trusts whose principal and income may be used for the purposes of the trust. These trusts include those for educational programs at museums, funds for unemployment benefits, and unclaimed property receipts.
- e. **Agency Funds** – Account for amounts held in trust by the Commonwealth for others. Agency funds include those funds established to account for the collection of taxes and fees for distribution to localities and other states, employee benefits, deposits of insurance carriers, child support collections and other miscellaneous accounts.

(4) Account Groups

Account groups are used to establish accounting control over the Commonwealth's general fixed assets, the unmatured principal of its general long-term debt, and other long-term obligations of governmental funds. General fixed assets do not represent financial resources available for appropriation and expenditure, nor does the unmatured principal of general long-term debt and other long-term obligations require current appropriation and expenditure of governmental fund financial resources.

- a. **General Fixed Assets Account Group** – Accounts for fixed assets of the governmental fund types. Fixed assets of the proprietary funds, trust funds, and discrete component units are accounted for in their respective funds.
- b. **General Long-Term Debt Account Group** – Accounts for obligations that are not recorded as current liabilities in governmental funds. These obligations include unmatured and unredeemed long-term general obligation bonds payable, obligations for accrued employee sick and vacation leave, pension liability, and capital lease obligations, which are backed by the full faith and credit of the Commonwealth. Also included are obligations of the Virginia Public Building Authority (Primary Government) that are not backed by the Commonwealth, but are included in the Commonwealth's reporting entity. Unmatured long-term debt relating to obligations of the proprietary funds and similar trust funds and the discrete component units is accounted for within the respective funds.

(5) Higher Education Fund (Component Unit)

The Higher Education Fund accounts for transactions related to resources received and used for the operation of the Commonwealth's institutions of higher education and related medical teaching hospitals. The Higher Education Fund is an aggregation of the following funds:

- a. **Current Funds** – Account for resources that will be expended for operating purposes. Funds over which the governing Boards retain full control are accounted for as current unrestricted. Current restricted funds may be utilized only in accordance with externally restricted purposes.
- b. **Loan, Endowment, and Agency Funds** – Account for assets held in a fiduciary capacity.
- c. **Plant Funds** – Account for assets that have been or will be invested in property, plant, and equipment, and assets that are reserved to retire debt issued to finance plant facilities.

D. Basis of Accounting for Funds

Governmental Fund Types, Expendable Trust Fund, and Agency Funds – The accounts of the General, Special Revenue, Debt Service, Capital Projects, and Expendable Trust Funds use a current financial resources measurement focus and are presented on a modified accrual basis of accounting. Under this basis, revenues and other financial resources are recognized in the accounting period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end. Material revenues subject to accrual include Federal grants and income and sales taxes. Expenditures and other uses of financial resources are recognized when the related fund liability is incurred, except for items that are not planned to be liquidated with expendable available resources, such as the long-term portion of the liability for compensated absences and capital lease obligations. Agency Funds are also accounted for on a modified accrual basis, but do not recognize revenues and expenditures. Agency Funds account for assets received and disbursed by a government in its capacity as an agent for individuals, businesses, or other governments.

Proprietary Fund Types, Pension, Investment and Nonexpendable Trust Funds – The accounts of these funds use a flow of economic resources measurement focus and are presented on the accrual basis of accounting. Under this basis, revenues are recognized when earned and expenses are recognized when the liability is incurred. All assets and liabilities associated with the operations of these funds are included on the balance sheet. Fund equity is segregated into contributed capital and retained earnings components. Proprietary

fund-type operating statements present increases and decreases in net total assets.

GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, provides governments two options for reporting their proprietary fund activities (including component units accounted for using proprietary fund accounting). All Proprietary Funds reported herein, with the exception of the Medical College of Virginia Hospitals Authority (Component Unit), the A. L. Philpott Manufacturing Extension Partnership (Component Unit), the Virginia Equine Center Foundation (Component Unit) and the Virginia Port Authority (Component Unit), apply all applicable GASB pronouncements and all FASB Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The Medical College of Virginia Hospitals Authority, the A. L. Philpott Manufacturing Extension Partnership, the Virginia Equine Center Foundation, and the Virginia Port Authority apply all of these pronouncements, and also apply all FASB Statements and Interpretations issued after November 30, 1989, except those that conflict with or contradict GASB pronouncements.

Higher Education Fund (Component Unit) – The accounts of this fund are presented on an accrual basis with the exception of the following:

- (1) Depreciation expense is not recorded on plant fund assets, and
- (2) Revenues and expenditures of an academic term that is conducted over a fiscal year end are reported totally in the fiscal year in which the program is predominantly conducted.

E. Budgetary Process

Budgetary amounts shown in the financial statements represent the total of the original budgeted amounts and all supplemental appropriations. The Commonwealth's budget is prepared principally on a cash basis and represents appropriations as authorized by the General Assembly. Unexpended appropriations at the end of the fiscal year generally lapse. However, they may be reappropriated for expenditure in the following fiscal year. The Governor, as required by the *Code of Virginia*, submits a budget composed of all proposed expenditures for the State, and of estimated revenues and borrowing for a biennium, to the General Assembly. Budgets are adopted for the General and Special Revenue Funds, except for the Literary and Virginia Public Building Authority Funds – Special Revenue Fund. Formal budgetary integration is not employed for the Capital Projects, Debt Service Funds, and the Literary and Virginia Public Building Authority Funds – Special Revenue Funds because effective budgetary control is alternatively achieved through the General Fund and the remaining Special Revenue Funds.

The budget is prepared on a biennial basis; however, the budgets of the General and Special Revenue Funds contain separate appropriations for each year within the biennial budget, as approved by the General Assembly and signed into law by the Governor. For management control purposes, the budget is controlled at the program level. The Governor may transfer an appropriation within a State agency or from one State agency to another, provided that total fund appropriations, as contained within the budget, are not exceeded. Increases in General Fund appropriations must be approved by the General Assembly.

Appropriations for programs funded from Special Revenue Funds may allow expenditures in excess of the original appropriations to the extent that revenues of the funds exceed original budget estimates and such additional expenditures are approved by the Governor through supplemental appropriations.

F. Cash Equivalents and Investments

Cash Equivalents

Cash equivalents are investments with an original maturity of three months or less.

Investment Bases

Investments are principally comprised of monies held by proprietary fund component units, endowment funds of higher education institutions (Component Unit), Pension Trust Funds, and monies held by the State Treasurer in both the general account and other fiduciary accounts.

Governmental and proprietary funds, both primary government and component units, report investments in money market and in the Commonwealth sponsored investment pools at amortized cost. All other investments are reported at fair value, in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

Investments administered by the Virginia Retirement System (VRS) are reported at fair value. The cost of investments sold is the average cost of the aggregate holding of the specific investment sold. Investments in affiliated organizations are accounted for on the equity method of accounting and the VRS' share of their earnings (losses) for the period is included in investment income using the equity method.

Investments of higher education institutions reflected in the Higher Education Fund (Component Unit) are reported at fair value, except for money market investments and investments in the Commonwealth sponsored investment pools, which are reported at amortized cost.

Derivatives

Derivative instruments are used to improve return on investments and modify risk exposures (see Note 6).

G. Receivables

Receivables in the governmental funds consist primarily of the accrual of taxes, as well as Federal revenue and receivables of the State's Medicaid program. Receivables of Trust and Agency Funds are primarily the accrual of member and employer contributions in the Pension Trust Funds and the accrual of local sales taxes in the Agency Funds. Receivables in the Proprietary Funds consist primarily of mortgage receivables and loans receivable. Receivables are recorded net of allowances for doubtful accounts (see Note 7).

H. Interfund Loans Receivable/Payable

Loans Receivable/Payable represent working capital advances from one fund to another (see Note 8).

I. Inventories

Materials and Supplies

Inventories of materials and supplies are reported as expenditures when consumed. These assets are offset by a fund balance reserve that indicates they are not available for spending. Inventories of the General, the Special Revenue, and the Expendable Trust Funds are maintained at cost using the first-in, first-out (FIFO) methodology, except for the following:

- Department of Personnel and Training (DPT)
- Virginia School for the Deaf and the Blind at Staunton (VSDBS)
- Virginia Employment Commission (VEC)
- Woodrow Wilson Rehabilitation Center (WWRC)
- Department of Conservation and Recreation (DCR)
- Department for the Visually Handicapped (DVH)
- Department of State Police (VSP)
- Virginia Department of Transportation (VDOT)
- Department of Health (VDH)

DPT inventories are recorded in the General and Other Special Revenue Funds using the FIFO methodology and are maintained based on the market methodology. VSDBS inventories are recorded in the General Fund using the last-in, first-out (LIFO) methodology based on the average cost methodology. VEC inventories are recorded in the Federal Trust Fund and are maintained based on the weighted average methodology.

WWRC, DCR and DVH inventories are recorded in the Other Special Revenue Fund. VSP inventories are recorded in the General and Other Special Revenue Funds. VDOT inventories are recorded in the Commonwealth Transportation Fund. VDH in-

ventories are recorded in the General, Other Special Revenue, and Federal Trust Funds. All of these inventories are maintained based on the average cost methodology.

Inventories maintained by the Internal Service Funds, the Virginia Museum of Fine Arts (Enterprise Fund), the Science Museum of Virginia (Enterprise Fund), the Consolidated Laboratory (Enterprise Fund), the Medical College of Virginia Hospitals Authority (Component Unit), and the Virginia Equine Center Foundation (Component Unit) are stated at the lower of cost or market using FIFO. Institutions of higher education (Component Units) use several methods for inventory valuations, including cost using FIFO, the lower of cost or market using FIFO, or weighted average methods.

The Department of Alcoholic Beverage Control (Enterprise Fund) maintains inventories at the lower of average cost or market. The Virginia Industries for the Blind (Enterprise Fund) maintain inventories using a weighted average cost methodology. Inventories maintained by the Virginia Port Authority (Component Unit) are reported using the moving average cost methodology. The Virginia Housing Development Authority (Component Unit) maintains inventories at the lower of cost or fair value. The State Lottery Department's (Enterprise Fund) inventory consists of unsold instant tickets that are valued at cost and expensed over the life of each game as it is sold to retailers.

Food Stamps

In accordance with GASB Statement No. 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance*, the Commonwealth recognizes food stamp distributions as revenue and expenditures in the Federal Trust Fund – Special Revenue Funds. Revenue and expenditures are recognized when benefits are distributed. Food stamps held at June 30 totaling \$58.0 million are reported as inventory and are offset by deferred revenue.

J. Prepaid Items

Prepaid expenses for rent, insurance, and similar items reported in governmental funds are recognized when purchased.

K. Other Assets

Other Assets include those balances of a miscellaneous nature that are not specifically classified elsewhere (see Note 10).

L. Property, Plant, and Equipment

Fixed assets of governmental funds are recorded as expenditures at the time of purchase and capitalized in the General Fixed Assets Account Group. For financial reporting purposes, depreciation is not recorded on general fixed assets. Fixed assets of the proprietary funds are capitalized in the fund in which they are utilized and depreciated on the straight-line basis over their useful lives. Fixed as-

sets of colleges and universities are capitalized in the Higher Education Fund (Component Unit). Depreciation is not provided on these assets (see Note 11).

Fixed assets are stated at historical cost or, in some instances, estimated historical cost. Donated fixed assets are stated at fair market value at the time of donation. The Commonwealth capitalizes all property, plant, and equipment that have a cost or value greater than \$5,000 and an expected useful life of greater than two years. Selected agencies and institutions of higher education utilize a capitalization limit lower than \$5,000 for various reasons. Accordingly, reported fixed assets may include some items that cost less than \$5,000. Infrastructure, including highways, bridges, and rights-of-way, are not capitalized.

The Commonwealth capitalizes construction-in-progress when project expenditures exceed \$5,000. Interest incurred during construction is not capitalized in the General Fixed Asset Account Group. Interest incurred during the construction of proprietary fund assets is included in the capitalized value of the asset. Expenditures are classified as construction-in-progress if:

- (1) they extend the asset life, improve productivity, or improve the quality of service; and
- (2) they fall into the planning, acquisition, construction, improvement, renovation, repair, replacement, relocation or demolition phase of the asset life.

The estimated lives of fixed assets are as follows:

	<u>Years</u>
Buildings	10–50
Equipment	2–20
Improvements Other than Buildings	5–20

M. Accounts Payable

Accounts payable represent amounts, including salaries and wages, owed for goods and services received prior to year-end.

N. Claims Payable

Claims payable, reported in the proprietary funds of the primary government, represent both health and liability insurance claims payable at June 30, 2000. This includes both actual claims submitted, as well as actuarially determined claims incurred but not reported. Claims relating to the Commonwealth's liability insurance programs are reported in the Risk Management – Internal Service Fund, and the Risk Management – Enterprise Fund. Also, health insurance claims incurred but not reported are actuarially determined and reported in the Health Care – Internal Service Fund and the Local Choice Health Care – Enterprise Fund (see Note 18.A. and 18.B.).

The claims payable reported in the Expendable Trust Fund reflects the amount of anticipated payments to the claimants of unclaimed property receipts.

The Medical College of Virginia Hospitals Authority (Component Unit) reports claims payable which represent health insurance claims payable at June 30, 2000. Claims expenses and liabilities arising from services rendered to Virginia Chartered Health Plan, Inc.'s (VA Chartered) (a Component Unit of the Medical College of Virginia Hospitals Authority) HMO members are reported when it is probable that services have been provided and the amount of the claim can be reasonably estimated. The claims payable at June 30, 2000, includes an estimate of claims that have been incurred but not reported. This liability is VA Chartered's best estimate based on available information.

O. Obligations Under Securities Lending Program

In accordance with GASB 28, *Accounting and Financial Reporting for Securities Lending Transactions*, liabilities resulting from these transactions have been recorded as obligations under security lending transactions.

P. Long-Term Liabilities

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group. Expenditures for principal and interest payments for governmental fund general obligation bonds and revenue bonds are recognized in the Debt Service Fund when due. Long-term liabilities expected to be financed from the proprietary funds, trust funds, and the discrete component unit funds, as well as the related interest payments, are accounted for in those funds (see Notes 16 and 19).

Q. Other Liabilities

Other liabilities represent amounts owed for various governmental and proprietary activities. Some of these amounts will be paid shortly after fiscal year end. Other amounts, such as lottery prizes and tuition benefits, will be paid over several years (see Note 20).

R. Deferred Revenue and Deferred Credit

Deferred Revenue

Deferred revenue represents monies received or revenues accrued but not earned as of June 30, 2000. The majority of this amount is reported in the Higher Education Fund (Component Unit), where it is primarily composed of revenue for student tuition accrued in advance of the semester. In the Special Revenue Funds, deferred revenue is composed primarily of Federal grant money received but not spent. In the Enterprise Funds, a majority represents unearned premiums of Risk Management and on-line ticket monies received by the State Lottery Department for which corresponding drawings have

not been held. In the Internal Service Funds, it represents primarily unearned premiums and rental income received but not spent for the Risk Management and Maintenance and Repair Funds, respectively. Deferred revenues in the proprietary component units consist primarily of the deferral of fees related to various lending activities.

Deferred Credit

The deferred credit represents the deferral of income taxes withheld for the period January through June 2000, that have not met the revenue recognition criteria and may ultimately be refunded upon the filing of income tax returns in subsequent years. This amount is estimated annually using statistical data derived from income taxes filed in previous years. Deferred credit totaling \$356.1 million is reported in the General Fund.

S. Reserved Retained Earnings

Reserved retained earnings indicate that portion of retained earnings that is segregated due to specific legal requirements or other externally imposed requirements (see Note 32).

T. Unreserved Retained Earnings

Unreserved retained earnings is the accumulated earnings of proprietary activities, net of amounts established as reserved retained earnings discussed in Note 1.S. above.

U. Reserved Fund Balances

Reserved fund balances indicate that portion of fund balance that is not available to fund operations or is legally segregated for specific future use (see Note 32).

V. Unreserved, Designated Fund Balances

Designations of fund balance, as shown in Note 3, are established to reflect tentative plans for future utilization of current financial resources. It is the policy of the Commonwealth to designate the portion of fund balance set aside by the General Assembly through the Appropriation Act to fund tentative but approved future plans. Unexpended appropriations approved by the Governor to be used to fund expenditures of the ensuing fiscal year are also reflected through a designation of fund balance. It is the policy of the Commonwealth to limit such designations in the event that their accumulation and presentation would cause a negative unreserved, undesignated fund balance to occur.

W. Unreserved, Undesignated Fund Balances

The unreserved, undesignated budgetary basis fund balance is the amount of fund balance remaining from operations of the current and prior years, net of amounts established as reserved and designated fund balance described in Notes 1.U. and 1.V. above.

X. Cash Management Improvement Act

Included in "Due to Other Governments" is the Commonwealth's Cash Management Improvement Act (CMIA) interest liability to the Federal government, which is calculated in accordance with the interest calculation and exchange provisions of the Federal Cash Management Improvement Act of 1990. The Commonwealth's interest liability is subject to review and final confirmation by the Financial Management Service (FMS) of the U.S. Treasury. The payment is to be made on or before March 1, 2001. Payment will be made from a sum sufficient appropriation authorized for this purpose by the Appropriation Act. The CMIA interest rate of exchange is based by law on the annualized average earnings rate of 13-week Treasury bills.

Y. Eliminations

Eliminations have been incorporated into the report to eliminate intrafund transactions within the related fund type. These eliminations prevent overstatement of financial activity. Interfund balances and transactions have not been eliminated.

Z. Total Columns on Combined Statements

The presentation of component units is not meant to be a consolidation since transactions within the State entity have not been eliminated (except as noted in Note 1.Y. above), nor have fixed assets or long-term debt been reported in the applicable State account groups. However, appropriations to the component units are recorded as operating transfers out of the General Fund and as operating transfers into the Component Unit organization.

The total columns on the Combined Financial Statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Information in these columns does not present consolidated financial position, results of operations, or cash flows.

2. APPROPRIATIONS

The amounts presented in the Combined Statement of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual – Budgetary Basis – General and Special Revenue Funds are principally on a cash basis and represent the original budget adopted by the General Assembly and all supplemental appropriations and transfers. The following schedule reconciles original appropriations to the final adjusted expenditure appropriations for the General Fund and all Special Revenue Funds:

<i>(Dollars in Thousands)</i>	General Fund (8)	Special Revenue Fund (8) (9) (10)
Appropriations (1)	\$ 10,899,599	\$ 6,301,685
Supplemental Appropriations:		
Reappropriations (2)	109,737	-
Subsequent Executive (3)	804	1,068,619
Subsequent Legislative (4)	176,324	38,400
Prior Year Reversions (5)	(12,447)	-
Deficit Loans Payable (6)	10,000	-
Transfers (7)	(1,972,194)	81,847
Appropriations, as adjusted	<u>\$ 9,211,823</u>	<u>\$ 7,490,551</u>

1. Represents the budget appropriated through Chapter 1072, 2000 Acts of Assembly.
2. Actions taken to reappropriate any prior year unexpended balances per authority of the language in the Appropriation Act.
3. Actions taken by the Governor to carry forward any prior year unexpended balances (General Fund) and actions taken to appropriate any additional revenues collected so that they can be legally spent (Special Revenue Funds).
4. Actions taken by the General Assembly to adjust the budget.
5. Prior year reversions are included in the accounting system for monitoring, but do not represent current year appropriations.
6. The Deficit Loans Payable represents loans from the Special Revenue Fund-Other to pay for Y2K efforts.
7. Represents transfers required by the Appropriation Act.
8. The General and Special Revenue appropriations as reported in the Budget/Actual statement include payments for securities lending transactions of \$6.3 million and \$1.3 million, respectively, as required by GASB Statement No. 28, *Accounting and Financial Reporting for Securities Lending Transactions*. These amounts are not included above.
9. The Special Revenue appropriations as reported in the Budget/Actual statement include the amount for food stamps (\$374.6 million) as required by GASB Statement No. 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance*. This amount is not included above.
10. The Special Revenue appropriations as reported in the Budget/Actual statement include expenditure reductions needed to eliminate budgetary deficits at the Department of Transportation and transfers for debt service payments. The amount above does not include these reductions of \$92.8 million.

3. GENERAL FUND ANALYSIS – BUDGETARY BASIS

The following schedule represents reservations and designations of General Fund balance on a budgetary basis as presented in the General Fund Preliminary (Unaudited) Annual Report dated August 15, 2000.

Reservations and Designations of Fund Balance General Fund, Budgetary Basis June 30, 2000

(Dollars in Thousands)

Fund Balance, June 30, 2000		\$ 1,855,331
Reserved Fund Balance:		
Revenue Stabilization Reserve Fund	\$ 574,633	
Revenue Stabilization Reserve 1999	103,346	
Payroll Reserve for July 3, 2000 Payroll	67,509	
Total Reserved Fund Balance		745,488
Unreserved Fund Balance:		
Designated:		
Amount Required for Reappropriation of 2000 Unexpended Balances:		
Mandatory Reappropriations	117,051	
Discretionary Reappropriations	34,772	
Capital Outlay	352,038	
Amount Required by Ch. 1073, 2000 Acts of Assembly	428,406	
Virginia Water Quality Improvement Fund - Part A	622	
Virginia Water Quality Improvement Fund - Part B	2,070	
Natural Disaster Sum Sufficient	3,932	
Revenue Stabilization Fund Contribution	170,952	
Total Designated Fund Balance		1,109,843
Undesignated Fund Balance, June 30, 2000		\$ -

4. BUDGETARY BASIS VS. GAAP BASIS FUND BALANCE

Since the presentation of financial data on a budgetary basis differs from that presented under generally accepted accounting principles, a schedule reconciling the fund balance on a budgetary basis at June 30, 2000, to the fund balance on a modified accrual basis follows.

Fund Balance Comparison Budgetary Basis to GAAP Basis June 30, 2000

(Dollars in Thousands)

	General Fund	All Special Revenue Funds
Fund Balance, Budgetary Basis	\$ 1,855,331	\$ 1,112,896
Adjustments from Budget to GAAP, Undesignated:		
Accrued Revenues:		
Taxes	519,018	18,045
Tax Refunds	(206,236)	-
Other Revenue	18,390	353,234
Deferred Credit	(356,078)	-
Medicaid Payable	(145,650)	(155,884)
Accrued Expenditures	(310,179)	(179,883)
Fund Reclassification - Budget to GAAP	-	(42,101)
Literary Fund - Fund Balance (1)	-	464,783
Virginia Public Building Authority (1)	-	117,283
Fund Balance, GAAP Basis	\$ 1,374,596	\$ 1,688,373

(1) As discussed in Note 1.E., these Special Revenue funds have no approved budget.

5. REVENUE STABILIZATION FUND

The Revenue Stabilization Fund has principal and interest on deposit of \$574.6 million reserved as a part of General Fund equity. The amount on deposit cannot exceed ten percent of the Commonwealth's average annual tax revenues derived from taxes on income and retail sales for FY 2000, FY 1999, and FY 1998. The maximum amount allowed in FY 2000 is \$864.9 million. The FY 2001 deposit into the Revenue Stabilization Fund, which is appropriated in the amount of \$103.3 million, is also reserved. In accordance with past policy, the deposit resulting from FY 2000 revenues has been designated, to the extent funds are available. The deposit is estimated at \$187.1 million; however, only \$171.0 million is designated.

6. CASH, CASH EQUIVALENTS, AND INVESTMENTS

At June 30, 2000, the carrying amount of cash for the primary government was \$(202,330,269) and the bank balance was \$139,415,018. The carrying amount of cash for the component units was \$77,454,766 and the bank balance was \$268,766,736. Cash equivalents are investments with an original maturity of three months or less.

The deposits of the primary government and the component units are secured in accordance with the provisions of the Virginia Security for Public Deposits Act, Section 2.1–359 et seq. of the *Code of Virginia*. The Act requires any public depository that receives or holds public deposits to pledge collateral to the Treasury Board to cover public deposits in excess of Federal deposit insurance. The required collateral percentage is determined by the Treasury Board and ranges from 50 percent to 100 percent of public deposits in the case of a bank and 100 percent to 110 percent for a savings institution.

Securities pledged by banks and savings institutions, under the Act, are held by an approved escrow agent for the Treasury Board. In the event a depository bank defaults or becomes insolvent, the Treasury Board first assesses the collateral of the defaulting or insolvent institution and then assesses the collateral pledged by other public depositories on a statutory based ratio to the extent necessary to satisfy the assessment against the defaulting bank. The collateral pledged by all banks is sufficient to cover the uncollateralized public deposits of any single bank. Upon default or insolvency of a savings institution, the Treasury Board assesses the institution the amount of public funds on deposit in excess of Federal insurance. The State Treasurer liquidates the necessary pledged collateral of the institution to reimburse public depositories to the extent of the institution's deposit liability to them. As a result, these deposits are considered insured.

Certain deposits are held by trustees in accordance with the Trust Subsidiary Act, Section 6.1–32.8 et seq. of the *Code of Virginia*. The Act requires that cash held by trustees while awaiting investment or distribution is not to be used by an affiliate bank of the trustee in the conduct of its business unless the affiliate bank delivers securities to the trust department as collateral that is at

least equal to the fair value of the trust funds held on deposit in excess of amounts insured by Federal deposit insurance.

The Commonwealth is authorized, in accordance with the guidelines set forth in Section 2.1–327 et seq. of the *Code of Virginia*, to invest in the following:

- U. S. Treasury and agency securities
- Corporate debt securities of domestic corporations
- Asset-backed securities
- Mortgage-backed securities
- AAA rated obligations of foreign governments
- Bankers acceptances and bank notes
- Negotiable certificates of deposit
- Repurchase agreements
- Money market funds

Permitted investments include agency mortgage-backed securities, reported as U.S. Treasury and agency securities, and asset-backed securities, reported as corporate notes, which by definition usually expose the investor to prepayment risk.

Prepayment risk, or the prepayment option granted the borrower, can create uncertainty concerning cash flows, can affect the price of the security causing negative convexity, and can expose the investor to reinvestment risk. Similarly, many agency and corporate securities are callable after some predetermined date at a predetermined price. The call options in regular agency debentures and some corporate securities can be open ended and may significantly impact cash flows, security pricing and reinvestment risks of these securities.

Certain investments held in trust by the Treasurer of Virginia in accordance with bond indentures and resolutions may have more restrictive investment policies. Investment policies of institutions of higher education (Component Units) are established by the institutions' governing boards.

The Board of Trustees of the Virginia Retirement System (VRS) (Primary Government) has full power to invest and reinvest the trust funds in accordance with Section 51.1–124.30 of the *Code of Virginia*, as amended. This section requires the Board to discharge its duties solely in the interest of the beneficiaries and to invest the assets with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. The Board must also diversify such investments so as to minimize the risk of large losses unless under the circumstances it is clearly prudent not to do so.

The information presented for the external investment pools was obtained from audited financial statements. Copies of the State Non-Arbitrage Program (SNAP) report may be obtained by writing Mentor Investment Group, Riverfront Plaza, 951 East Byrd Street, Richmond, Virginia 23219. Copies of the Local Government Investment Pool (LGIP) report may be obtained by writing the Department of the Treasury, Post Office Box 1879, Richmond, Virginia 23218. Participation in these pools is voluntary, except for participants who borrow

through the Virginia Public School Authority's pooled bond program and must participate in SNAP.

SNAP is an open-end management investment company registered with the Securities Exchange Commission (SEC). LGIP is not SEC-registered; however, it maintains a policy to operate in a manner consistent with SEC Rule 2a7.

Custodial Risk

Investments held by the Commonwealth at June 30, 2000, have been categorized according to the level of credit risk associated with its custodial arrangements at fiscal year end.

Credit risk, as used below, refers to the risk that the Commonwealth may not be able to obtain possession of its investments in the event of default by counterparty. The three types of credit risk are:

- Category 1, which includes investments that are insured or registered or for which securities are held by the Commonwealth or its agent in the Commonwealth's name;

- Category 2, which includes uninsured and unregistered investments for which securities are held by the counterparty's trust department or agent in the Commonwealth's name; and,
- Category 3, which includes uninsured and unregistered investments for which securities are held by the counterparty, or by its trust department or agent, but not in the Commonwealth's name.

Securities lent at year-end for cash collateral are presented as unclassified. Securities lent for non-cash collateral are classified according to the custodial arrangements.

The investments of the Pension Trust Funds are approximately 73.0 percent of the primary government investments that are in Category 1 and 99.6 percent of those in Category 3. Additionally, the entire amounts of Equity Index and Pooled Funds, Real Estate, Venture Capital, foreign currencies, and TBC Pooled Employee Trust Fund included in the primary government schedule are attributable to the Pension Trust Funds, and cannot be categorized because the investments are not evidenced by physical securities.

Primary Government

Securities Lending

The State Treasury's securities lending program is managed by its Master Custodian, BankersTrust, under a contract dated December 1, 1997. The enabling legislation for the securities lending program is § 2.1-328.6 of Chapter 18 Investment of Public Funds of the *Code of Virginia*, as amended. No violations of legal or contractual provisions were noted during the year. The general account participated in the securities lending program for the entire year.

All securities lending loans are on an open-ended or one-day basis and may be terminated by Treasury with a 24-hour notice. Per the contract with BankersTrust, all pledged cash and other collateral attributable to loans made on the Commonwealth's behalf shall be maintained by the Master Custody Bank, and Treasury cannot pledge or sell such collateral absent a default.

The State Treasury's contract with BankersTrust provides for loss indemnification against borrower default as a result of bankruptcy, insolvency, reorganization, liquidation, receivership or similar event. Additionally,

BankersTrust provides indemnification for any losses experienced from reinvestment of cash collateral in investments not authorized by the provisions of the investment guidelines for the Commonwealth of Virginia agreed upon by both parties and made a part of the Securities Lending Agreement. There were no losses resulting from default during the reporting period, nor recoveries of prior period losses during this reporting period.

When securities are loaned, the collateral received must be, at the time of the loan, at least 102 percent of fair value of the securities loaned and must be maintained at 100 percent or greater. There are no stated restrictions on the amount of securities that may be loaned, but the basic composition of the general account portfolio has only about 70 percent in loanable securities, thus effectively capping the maximum percentage of the portfolio that may be loaned. Additionally, the general account portfolio is comprised of only 10 percent in Treasury securities, which are by far the most loanable securities. During the past fiscal year, approximately 15 percent of the lendable base of securities were on loan.

During the past year, a combination of U.S. Government (Treasury and Agency), securities and corporate securities have been loaned, with the majority of the loaned securities being U. S. Government securities. Collateral received included a combination of cash and non-cash securities, with the non-cash collateral being U.S. Agency securities.

Securities loaned for the general account as of June 30, 2000, had a reported amount of \$368,285,919 and a fair value of \$365,304,614. The fair value of the collateral received was \$377,722,944 providing for coverage of 103.4 percent. As a result, the State Treasury assumes no credit risk.

Current cash investment guidelines allow for a maximum weighted-average portfolio maturity of 45 days. At June 30, 2000, the cash reinvestment portfolio had a weighted average maturity of 21 days. Treasury's current cash reinvestment guidelines allow for investment in Government securities, AAA rated sovereign governments, commercial paper and corporate notes, negotiable certificates of deposit, certificates of deposit and time-deposits collateralized under the Virginia Security for Public Deposits Act, bankers acceptances, bank notes, repurchase agreements collateralized by U. S. Treasury and Agency issues, and registered money market funds. At June 30, 2000, cash reinvestments were as follows: \$10 million in certificates of deposit, \$128 million in corporate notes, \$84 million in commercial paper, and \$115 million in repurchase agreements collateralized by Government securities. Non-cash collateral at June 30, 2000, was approximately \$40 million in Agency securities.

Under authorization of the Board of Trustees, the VRS lends its fixed income and equity securities to various broker-dealers on a temporary basis. The program is administered through an agreement with the VRS' custodial agent bank. All security loan agreements are collateralized by cash, securities or irrevocable letter of credit issued by major banks, having a fair value equal to at least 102 percent of the fair value on domestic securities and 105 percent on international securities. Securities received as collateral cannot be pledged or sold by the VRS unless the borrower defaults. Contracts with the lending agent require them to indemnify the VRS if the borrowers fail to return the securities lent and related distributions, and the collateral is inadequate to replace the securities lent.

All security loans can be terminated on demand by either the VRS or the borrowers. The majority of loans are open loans in which the rebate is set daily, resulting in a maturity of one or two days on average for loans, although securities are often out on loan for a longer period of time. The maturity of loans generally does not match the maturity of collateral investments, which averages 122 days. At year-end, the VRS has no credit risk exposure to borrowers because the amounts the VRS owes the borrowers exceed the amounts the borrowers owe the VRS. The fair value of securities on loan at June 30, 2000, was \$2,375,499,000 and the value of collateral (cash and non-cash) was \$2,418,924,000.

Securities out on loan are included with investments on the Combining Statement of Plan Net Assets and are classified in the summary of custodial risk. The invested cash collateral is included in the statement as an asset and corresponding liability. The invested cash collateral is also classified in the summary of custodial risk.

As authorized by Section 2.1–328.6 of the *Code of Virginia*, the Virginia Lottery, through its master custodian, BankersTrust, New York, N. Y., N. A., lends securities to various security brokers and lenders on a temporary basis for a fee. Up to 100 percent of the securities may be available for loan. All security loan agreements are collateralized at loan inception at 102 percent of fair value by cash or U. S. Government obligations and adjusted to market daily to cover fair value fluctuations. As a result, management assumes no credit risk. The maturity of loans does not usually match the maturity of the collateral investments.

The Virginia Lottery does not have the ability to use cash collateral or to pledge or sell collateral securities absent borrower default. The Lottery's contract with BankersTrust provides for loss indemnification against borrower default as a result of bankruptcy, insolvency, reorganization, liquidation, receivership or similar event. There were no losses resulting from default during the reporting period, nor recoveries of prior period losses during this reporting period. At June 30, 2000, the fair value of investment account securities on loan was \$182,320,895 and the value of collateral (cash and non-cash) was \$185,967,313.

Derivative Financial Instruments

Derivative instruments are financial contracts whose values depend on the values of one or more underlying assets, reference rates or financial indices. They include futures, forwards, options, or swap contracts. In addition, some traditional securities can have derivative-like characteristics such as structured notes where the return may be linked to one or more indices and asset-backed securities such as collateralized mortgage obligations which are sensitive to changes in interest rates and prepayments. Futures, forwards, options and swaps are generally not recorded on the balance sheet, whereas structured notes and asset-backed investments generally are recorded.

The VRS is a party, both directly and indirectly, to various derivative financial investments off and on the balance sheet that are used in the normal course of business to enhance returns on investments and manage risk exposure to changes in value due to fluctuations in market conditions. These investments may involve, to varying degrees, elements of credit and market risk in excess of amounts recognized on the balance sheet. Credit risk is the possibility that loss may occur from failure of a counterparty to perform according to the terms of the contract. Market risk arises due to adverse changes in market price, interest rate and foreign exchange rate fluctuations that may result in a decrease in the fair value of a financial investment and/or increase in its funding cost.

In addition to the derivative financial instruments directly held, the VRS may have indirect exposure to risk through its ownership interests in commingled investment funds that use, hold, or write derivative financial instruments. Indirect exposure may also arise from stock lending programs in which the commingled funds participate. Such programs usually reinvest a portion of their cash collateral holdings in derivative instruments. The VRS' pro rata share of the contractual or notional amounts of outstanding derivative transactions in commingled investment funds and security lending programs approximated \$162,048,000 at June 30, 2000.

Forward, Futures, and Options Contracts

Forward contracts are contracts to purchase or sell, and futures contracts are contracts to deliver or receive financial instruments, foreign currencies or commodities at a specified future date and at a specified price or yield. Futures contracts are traded on organized exchanges (exchange traded) and require initial margin (collateral) in the form of cash or marketable securities. The net change in the futures contract value is settled in daily cash with the exchanges. Holders of futures contracts look to the exchange for performance under the contract and not to the entity holding the offsetting futures position. Accordingly, the amount at risk due to nonperformance of counterparties to futures contracts is minimal. In contrast, forward contracts traded over-the-counter are generally negotiated between two counterparties and are subject to credit risks due to nonperformance of one of the counterparties and to market risks as a result of adverse fluctuations in market prices, interest rates and foreign exchange rates. At June 30, 2000, the VRS had purchased S & P and Russell Index futures and options on Eurodollar and Treasury bond note futures, including options on Eurodollar futures, with a fair value of \$2,414,572,000 and sold S&P Index futures and options on Eurodollar and Treasury bond and note futures, including options on these futures with a net fair value of \$55,884,000.

Options, which may be either exchange traded or negotiated directly between two counterparties over the counter, grant the holder the right, but not the obligation, to purchase or sell a financial instrument at a specified price and within a specified period of time from the 'writer' of the option. As a purchaser of options, the VRS typically pays a premium at the outset, which is reflected as an asset on the financial statements. The VRS then retains the right but not the obligation to exercise the option and purchase the underlying financial instrument. Should the option not be exercised, it would expire worthless and the premium would be recorded as a loss. A writer of options assumes the obligation to deliver or receive the underlying financial instrument on exercise of the option. Certain option contracts may involve cash settlements based on specified indices such as stock indices. As a writer of options, the VRS receives a premium at the outset, which is reflected as a liability on the financial statements and bears the risk of an unfavorable change in the price of the financial instrument underlying the option. At June 30, 2000, the VRS had written put options with a total market value of \$1,995,000, and had purchased call options with a market value of \$1,485,000.

Forward, futures and options contracts provide the VRS with the opportunity to build passive benchmark positions, manage portfolio duration in relation to various benchmarks, adjust portfolio yield curve exposure and gain market exposure to various indices in a more efficient way and at lower transaction costs. Credit risks depend on whether the contracts are exchange traded or are exercised over-the-counter. Market risks arise from adverse changes in market prices, interest rates, and foreign exchange rates.

In addition to unsettled purchases and sales, accounts receivable and accounts payable for security transactions at June 30, 2000, include receivables for deposits with brokers for securities sold short of \$1,246,715,000 and payables for securities sold short and not covered with fair values of \$1,103,286,000.

Asset-Backed Securities

In the area of on-balance sheet financial instruments with derivative-like characteristics, the VRS invests in various asset-backed securities such as collateralized mortgage obligations (CMO), principal-only strips (PO), and interest-only strips (IO) primarily to enhance returns by taking advantage of opportunities available in this sector of the securities markets. CMO securities are bonds collateralized by mortgage-backed securities and issued in several tranches that represent a reallocation of the underlying mortgage-backed securities cash flows. Both PO and IO securities are created by splitting the asset-backed securities into principal-only and interest-only portions. At June 30, 2000, the VRS held CMO securities with a fair value of \$311,350,000, and IO and PO securities with a fair value of \$10,754,000.

The credit risks on the various asset-backed securities in which the VRS invests are usually very low. Many of the securities held by the VRS are issued by quasi-U.S. governmental agencies. Others are issued by organizations with AAA or AA credit ratings. The market risk of these securities is dependent on changes in interest rates and the level of the underlying prepayments, i.e., when the mortgagors repay the underlying principal and interest.

Foreign Exchange Contracts

Foreign exchange contracts include forward, futures and options contracts and involve either the exchange of specific amounts of two currencies or the delivery of a fixed amount of a currency at a future date and specified exchange rate. Forward and futures contracts settle three or more business days from the contract date. Forward contracts are negotiated over the counter between two counterparties, while futures contracts are exchange traded. Foreign currency options, which are either negotiated between two counterparties or are exchange traded, grant the buyer the right, but not the obligation, to purchase or sell at a specified price, a stated amount of an underlying currency at a future date. At June 30, 2000, the VRS had sold foreign currency contracts with a fair value of \$661,685,000 and had purchased foreign currency contracts with a fair value of \$663,286,000.

Foreign exchange contracts are used by the VRS to effect settlements and to protect the base currency (\$US) value of portfolio assets denominated in foreign currencies against fluctuations in the exchange rates of the foreign currencies. The credit risk of currency contracts that are exchange traded lies with the clearing-house of the exchange where the contracts are traded. The credit risk of currency contracts traded over-the-counter lies with the counterparty, and exposure is usually equal to the unrealized profit on in-the-money contracts. The market risk in foreign currency contracts is related to adverse movements in currency exchange rates.

Component Units

Derivative Financial Instruments

Derivative instruments are financial contracts whose values depend on the values of one or more underlying assets, reference rates, or financial indices. A derivative instrument generally has one or more underlying investment, requires little or no initial net investment, and requires or permits a net settlement. In addition, some traditional securities can have derivative-like characteristics. Examples of common derivatives include, but are not limited to, futures, forwards, options or swap contracts. Although the contract or notional amount of the derivative is not recorded on the financial statements, all derivative instruments are recognized as either an asset or a liability depending on the rights or obligations of the contract measured at fair value.

The Virginia Housing Development Authority manages its interest risk on single and multi-family loan commitments through short sales of investment securities. These transactions meet the requirements for hedge accounting as all hedged items are specifically identified, probable of occurring, and highly correlated to the hedging instrument. The gain or loss from hedging transactions is recorded as an unamortized premium or discount and recognized as an adjustment to yield over the remaining life of the loan. The Authority periodically assesses correlation in order to determine the ongoing appropriateness of hedge accounting. During the year ended June 30, 2000, the Authority experienced a net loss of \$400,395 from hedging transactions settled during the year. At June 30, 2000, \$23,628,443 of short sales were outstanding which had an unrealized loss of \$727,210. The Authority's policy is to make adjustments to interest rates of loans related to such hedging

transactions to reflect the losses or gains on such hedging transactions.

The University of Virginia has exposure, both directly and indirectly, to various derivative financial instruments that are used in the normal course of business to enhance returns on investments and manage risk exposure to changes in value due to fluctuations in market conditions. These investments may involve, to varying degrees, elements of credit and market risk in excess of amounts recognized on the financial statements. Credit risk is the possibility that losses may occur from the failure of a counterparty to perform according to the terms of the agreement. The University minimizes the credit (or repayment) risk in its direct derivative instrument by entering into transactions with high quality counterparties and a legally enforceable master netting agreement. The "net" mark to market exposure represents the netting of the positive and negative exposures with the same counterparty. Market risk arises due to adverse changes in market price, interest rate and foreign exchange rate fluctuations that may result in a decrease in the market value of a financial investment and/or increases, in its funding cost. The University manages market risk by establishing and monitoring limits as to the type and degree of risk that may be undertaken.

The University has directly entered into a fair value hedge to manage returns on a portion of its endowment investments having limited liquidity. The University's fair value hedge is subject to a master netting agreement. An assessment of the effectiveness of the fair value hedge is performed at least monthly and has been highly effective in offsetting changes in fair value of the hedged items since inception.

In order to secure its obligations under the derivative instrument agreement, the counterparty required the ability to retain a perfected security interest in collateral provided from the University's endowment assets. The agreement requires the University to maintain collateral in cash or margin eligible securities in acceptable value equivalent to the greater of \$73,000,000 or the University's obligation, if any, under the agreement. At June 30, 2000, the University has made available to the counterparty more than sufficient collateral in the form of \$137,065,000 of U.S. Government securities and \$591,000 of cash. The collateral is maintained with the University's custodian in a segregated account.

7. RECEIVABLES

The following schedule details the accounts, loans, taxes, and other receivables presented in the various funds:

Schedule of Receivables

June 30, 2000

(Dollars in Thousands)

8. INTERFUND ASSETS/LIABILITIES

Due from/to Other Funds

Due from Other Funds are amounts to be received from one fund by another fund for goods sold or services rendered. Due to Other Funds are amounts owed by one fund to another fund for goods purchased or services obtained.

Included in the category of due from other funds are "Due from Other Funds and Primary Government" and "Due from Component Units." Included in the category of due to other funds are "Due to Other Funds and Primary Government" and "Due to Component Units." The following schedule shows the Due from/to Other Funds as of June 30, 2000.

Schedule of Due from/to Other Funds

Interfund Loans Receivable/Payable Between Other Funds and Between Primary Government and Component Units

The \$356.7 million in Interfund Loans Receivable represents loans from the Special Revenue Fund to the General Fund, Virginia Public School Authority (Component Unit) and Higher Education (Component Unit). The General Fund loan of \$10 million was for the Department of Technology Planning to pay for the Y2K efforts.

The Literary Fund, a Special Revenue Fund, provides low interest loans to school divisions for construction, renovation, and expansion of school buildings of the cities, counties and towns of the Commonwealth. Twice a year, all permanent loans in the Literary Fund are transferred to the Virginia Public School Authority (Component Unit) for use as collateral on bonds. A loan receivable is recorded by the Literary Fund. At year-end, \$338.3 million in loans were receivable in the Special Revenue Fund and payable from the Authority.

The remaining \$8.4 million was loaned to Higher Education (Component Unit). George Mason University's loan of \$3.0 million, the College of William and Mary's loan of \$0.7 million, and the Virginia Community College System's loan of \$0.6 million were used to advance fund federally funded grant programs. Norfolk State University's loan of \$2.3 million represents the remaining balance of a loan granted by the Commonwealth of Virginia in fiscal year 1998 to cover cash deficits. Longwood

College's loan of \$1.0 million will be used for the College's housing sprinkler project. The balance of \$0.8 million is spread among various Higher Education Institutions.

The \$119.5 million in Interfund Loans Receivable represents loans from the Virginia Public School Authority to the Literary Fund. The Virginia Public School Authority makes grants to local school divisions to finance the purchase of educational technology equipment. The Authority makes these grants using the proceeds of notes issued for that purpose which will be repaid from appropriations to be made by the Virginia General Assembly from the Literary Fund.

9. RESTRICTED ASSETS

Restricted assets represent monies or other resources that must be used for specific legal or contractual requirements. The Medical College of Virginia Hospitals Authority (Component Unit) reported restricted assets totaling \$159.9 million for debt service under a bond indenture agreement, amounts designated by the Board of Directors for capital acquisition, resources restricted under malpractice trust agreement, resources restricted by insurance regulations of the Commonwealth of Virginia, and resources restricted under the pension plan agreement. The remaining \$2.4 million is spread among the Virginia Port Authority and the Small Business Financing Authority.

10. OTHER ASSETS

The following table (reported in thousands of dollars) summarizes Other Assets as of June 30, 2000:

	Primary Government					Total Primary Government
	General	Special Revenue	Enterprise	Internal Service	Trust and Agency	June 30, 2000

12. RETIREMENT AND PENSION SYSTEMS

A separately issued financial report that includes financial statements and required supplemental information for each of the individual plans discussed below is publicly available. Copies may be obtained by writing to Virginia Retirement System, P. O. Box 2500, Richmond, Virginia 23218-2500.

A. Plan Description

The Virginia Retirement System (VRS), a mixed agent and cost-sharing multiple-employer retirement plan, provides defined benefit pension plan coverage for State employees, teachers, political subdivision employees and other qualifying employees. The assets accumulated by the plan may legally be used to pay all benefits provided by the plan to any of the plan members or beneficiaries. At June 30, 2000, the VRS had 779 contributing employers. The State Police Officers' Retirement System (SPORS), the Judicial Retirement System (JRS), and the Virginia Law Officers' Retirement System (VaLORS) are single-employer defined benefit retirement plans. The SPORS provides retirement benefits to Virginia state police officers, the JRS provides retirement benefits to the Commonwealth's judiciary, and the VaLORS provides benefits to law enforcement and correctional officers other than state police officers. All retirement systems are administered by the Virginia Retirement System (System), an independent agency of the Commonwealth.

Benefit provisions and all other requirements are established by Title 51.1 of the *Code of Virginia*. All full-time, salaried, permanent employees of the Commonwealth, with the exception of certain full-time faculty and administrative staff of higher education institutions and eligible employees of the state's teaching hospital who have the option not to participate in the VRS, must participate in the VRS, SPORS, JRS, or VaLORS. Benefits vest after five years of service.

Employees are eligible for an unreduced retirement benefit at age 65 with five years of service (age 60 for participating law enforcement officers) or at age 50 with at least 30 years of service if elected by the employee (age 50 with at least 25 years of service for participating law enforcement officers). Employees who retire with a reduced benefit at age 50 with at least ten years of credited service or at age 55 (age 50 for participating law enforcement officers) with at least five years of credited service are entitled to an annual retirement benefit payable monthly for life in an amount equal to 1.7 percent of their average final salary (AFS) for each year of credited service. AFS is defined as the yearly average of the highest consecutive 36 months of salary.

Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. Members of the SPORS, VaLORS and participating law enforcement officers may receive a monthly benefit supplement if they retire prior to

age 65. Members of the JRS receive weighted years of creditable service for each year of actual service for the JRS. The VRS, SPORS, VaLORS, and JRS also provide death and disability benefits. These benefit provisions and all other requirements are established by State statute.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the pension trust funds are prepared using the economic resources measurement focus and the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed, and investment income is recognized as earned by the pension plans. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

Method Used to Value Investment

Investments are reported at fair value as determined by the System's master custodian, Boston Safe Deposit and Trust Company (Mellon Trust), from its Global Pricing System. This system assigns a price source, based on asset type and the vendor pricing products to which the master custodian subscribes, for every security held immediately following its acquisition. Prices supplied by these sources are monitored on a daily basis by the master custodian.

The pricing sources utilized by the master custodian provide daily prices for equity securities, corporate, government and mortgage-backed fixed income securities, private placement securities, futures and options on futures, open-ended funds, and foreign exchange rates. Depending on the vendor, collateralized mortgage obligations (CMOs), adjustable rate mortgages (ARMs), and asset-backed securities are priced either daily, weekly or twice a month, and at month end. Municipal fixed income securities are priced twice a month, and options on Treasury/Government National Mortgage Association (GNMA) securities are priced at month end.

When a price source is unable to provide a price, quotes are sought from major investment brokers and market making dealers or internal calculations are applied if feasible. As a last resort, the master custodian will contact investment managers for a price. The master custodian prices commingled funds, partnerships, and real estate assets from statements received from the funds, partnerships, or investment managers.

The retirement plans have no concentrations of investments in any one organization that represent 5 percent or more of plan net assets available for benefits.

C. Funding Policy

Employer and employee contributions are required by Title 51.1 of the *Code of Virginia*. The Commonwealth pays the 5 percent of employees' annual salaries that employees are required to contribute to the retirement system.

Employer contributions by the Commonwealth to the VRS and SPORS were 6.03% and 19.2% of covered payrolls. Employer contributions by the Commonwealth to VaLORS and JRS were 6.03% and 34.25% of covered payrolls. These rates were

less than actuarially determined Annual Required Contributions (ARC), but they did meet statutory requirements. The ARC has parameters for funding automatic cost-of-living increases (COLAs) for retirees. The Commonwealth has elected the option that allows contributions to include an annual amount that would phase-in the parameters over a five-year period ending with fiscal year 2002.

D. Annual Pension Cost and Net Pension Obligation

The following table (reported in thousands of dollars) shows the Commonwealth's annual pension cost and net pension obligation to the VRS, SPORS, JRS, and VaLORS for the current and prior years.

	VRS			SPORS		
	2000	1999	1998	2000	1999	1998
Annual required contribution	\$ 208,082	\$ 217,448	\$ 195,744	\$ 18,332	\$ 16,767	\$ 11,909
Interest on net pension obligation	15,554	10,076	4,424	912	485	203
Adjustment to annual required contribution	(11,035)	(7,148)	(3,139)	(647)	(345)	(144)
Annual pension cost	212,601	220,376	197,029	18,597	16,907	11,968
Contributions made	(167,120)	(151,898)	(126,388)	(15,044)	(11,576)	(8,435)
Increase in net pension obligation	45,481	68,478	70,641	3,553	5,331	3,533
Net pension obligation, beginning of year	194,425	125,947	55,306	11,402	6,071	2,538
Net pension obligation, end of year	\$ 239,906	\$ 194,425	\$ 125,947	\$ 14,955	\$ 11,402	\$ 6,071
Percentage of annual pension cost contributed	78.6%	68.9%	64.1%	80.9%	68.5%	70.5%

	JRS			VaLORS		
	2000	1999	1998	2000	1999 (1)	1998 (1)
Annual required contribution	\$ 15,332	\$ 14,295	\$ 12,949	\$ 16,216	\$ -	\$ -
Interest on net pension obligation	364	249	104	-	-	-
Adjustment to annual required contribution	(258)	(177)	(74)	-	-	-
Annual pension cost	15,438	14,367	12,979	16,216	-	-
Contributions made	(14,935)	(12,938)	(11,166)	(13,753)	-	-
Increase in net pension obligation	503	1,429	1,813	2,463	-	-
Net pension obligation, beginning of year	4,547	3,118	1,305	-	-	-
Net pension obligation, end of year	\$ 5,050	\$ 4,547	\$ 3,118	\$ 2,463	\$ -	\$ -
Percentage of annual pension cost contributed	96.7%	90.1%	86.0%	84.8%	0.0%	0.0%

(1) VaLORS was established on July 1, 1999; therefore, no prior year data is available.

The VRS pension liability for the Virginia Economic Development Partnership (VEDP) (Component Unit) and the Virginia Tourism Authority (VTA) (Component Unit) are reported in the financial statements. However, since the Commonwealth is not considered the employer for VEDP or VTA, the Commonwealth's net pension obligation shown above at the end of the year does not include VEDP's pension liability of \$621,210 or VTA's pension liability of \$42,551.

The annual required contributions for the current year were determined by the June 30, 1996, actuarial valuation, and the most recent actuarial valuation of assets was determined at June 30, 1999. Both actuarial valuations were prepared using the entry age normal cost method. The actuarial assumptions included (a) 8.00% investment rate of return, per year compounded annually; (b) projected salary increases ranging from 4.00% to 6.15%, including a 4.00% inflation component; and (c) 3.50% per year COLA. Valuation techniques were applied to smooth the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 1999, was 27 years.

E. Defined Contribution Plan for Political Appointees

Officers appointed by the Governor, officers elected by popular vote or the General Assembly, and executive branch chief deputies and confidential assistants may participate in an optional retirement plan, rather than the VRS. This optional retirement plan is authorized by the Code of Virginia and offered through the Copeland Company. This is a defined contribution plan where the retirement benefits are based upon the Commonwealth's (5.4 percent) and the employee's (5.0 percent) contributions, plus interest and dividends. The Commonwealth pays the required employee contributions. During the year ended June 30, 2000, the total contributions to this plan were \$756,572.

The plan has no concentration of investments in any one organization that represents 5.0 percent or more of the plan net assets available for benefits.

F. Higher Education Fund (Component Unit)

The Commonwealth's colleges and universities participate in the VRS, a mixed agent and cost-sharing multiple-employer retirement plan. The VRS issues a separate stand-alone report that is publicly available as previously discussed.

In addition, full-time faculty and certain administrative staff of the Commonwealth's colleges and universities may participate in an optional retirement annuity program, rather than the VRS. Optional Retirement Plans are authorized by the *Code of Virginia* and provide retirement and death benefits. The optional retirement annuity programs are offered through Teachers Insurance and Annuity As-

sociation – College Retirement Equities Fund (TIAA-CREF) Insurance Companies, Variable Annuity Life Insurance Company (VALIC), Fidelity Investments, Inc., Great West Life, Inc., T. Rowe Price, Inc., and Metropolitan Life. These are defined contribution programs where the retirement benefits received are based upon the Commonwealth's (5.4 percent) and employees' (5.0 percent) contributions, plus interest and dividends. The Commonwealth pays the required employee contributions. During the year ended June 30, 2000, the total contributions to these plans were:

TIAA-CREF	\$50,567,255
VALIC	2,785,106
Fidelity Investments	16,107,694
Great West Life	297,140
T. Rowe Price	1,276,809
Metropolitan Life	<u>51,587</u>
Total	<u>\$71,085,591</u>

The Innovative Technology Authority (ITA) has a defined contribution retirement plan covering substantially all employees. Under the plan, contributions are fixed at a percentage of each employee's compensation to pay premiums for individual retirement annuity contracts written by TIAA-CREF. Pension contributions for the plan totaled \$369,686 in 2000.

G. Other Component Units

Note 1.B. outlines the component units included in the Commonwealth's reporting entity. The Virginia Historic Preservation Foundation (Blended - Primary Government), the Virginia Public Building Authority (Blended - Primary Government), the Virginia Public School Authority, the Virginia College Building Authority, the Wireless E-911 Service Board, the Virginia State Parks Foundation, and the Virginia Schools for the Deaf and Blind Foundation have no employees. The Virginia Resources Authority has no pension plan. The Virginia Economic Development Partnership, the Small Business Financing Authority, the Hampton Roads Sanitation District Commission, the Virginia Biotechnology Research Park Authority, the A. L. Philpott Manufacturing Extension Partnership, the Virginia Outdoors Foundation, the Virginia Tourism Authority, the Tobacco Indemnification and Community Revitalization Commission, and the Virginia Tobacco Settlement Foundation contribute solely to the VRS, a mixed agent and cost-sharing multiple-employer retirement plan. The VRS issues a separate stand-alone report that is publicly available as previously discussed.

Full-time employees of the Virginia Housing Development Authority participate in a defined contribution employees' retirement savings plan administered by the Authority. This is a noncontributory plan where the Authority incurs employment retirement savings expense equal to 8.0 percent of full-time employees' compensation. Total retirement savings expense under this plan was

\$1,205,727 in fiscal year 2000. The retirement expense is fully funded as incurred; therefore, there is no unfunded future retirement liability.

The Virginia Port Authority contributes to the VRS. The Authority also sponsors two single-employer noncontributory defined benefit pension plans. The Virginia Port Authority Pension Plans are administered by the Authority and provide retirement, disability, and death benefits to plan members and beneficiaries. Benefit provisions and obligations are established and may be amended by the Board of Commissioners of the Authority. The Authority's

policy is to fund annually the minimum funding requirements of the Employee Retirement Income Security Act of 1974. The plan's financial report is audited annually and can be obtained through the Human Resource Department at the Authority.

The components of annual pension cost and prepaid pension obligation for the first single-employer noncontributory defined benefit pension plan are as follows:

	2000	1999	1998
Service cost - benefits earned during the year	\$ 972,000	\$ 986,000	\$ 828,000
Interest cost on projected benefit obligation	1,596,000	1,484,000	1,321,000
Expected return on assets	(2,614,000)	(2,358,000)	(1,943,000)
Net amortization and deferral	<u>(363,000)</u>	<u>(136,000)</u>	<u>(211,000)</u>
Annual pension cost	(409,000)	(24,000)	(5,000)
Contributions made	<u>(193,500)</u>	<u>(192,000)</u>	<u>(598,000)</u>
Increase in prepaid pension obligation	(602,500)	(216,000)	(603,000)
Prepaid pension obligation, beginning of year	<u>(3,962,000)</u>	<u>(3,746,000)</u>	<u>(3,143,000)</u>
Prepaid pension obligation, end of year	<u>\$ (4,564,500)</u>	<u>\$ (3,962,000)</u>	<u>\$ (3,746,000)</u>

The annual pension cost for the current year was determined as part of the October 1, 1998, actuarial valuation using the aggregate actuarial cost method, which does not identify and separately amortize unfunded actuarial liabilities. The actuarial value of assets was determined using fair value. The discount rate and estimated rate of increase in future compensation levels used in determining the actuarial present value of the projected benefit obligation for 2000 were 7.5 percent and 5.0 percent, respectively. The expected long-term rate of return on assets used in determining net periodic pension cost was 8.0 percent.

The following table sets forth the plan's funded status and the related amounts recorded in the Authority's balance sheets at June 30, 2000, 1999, and 1998.

Three-Year Trend Information

Fiscal Year Ended June 30	Annual Pension Cost (APC)	Percentage of APC Contributed	Prepaid Pension Obligation
2000	\$ (409,000)	0 %	\$ (4,564,500)
1999	\$ (24,000)	0 %	\$ (3,962,000)
1998	\$ (5,000)	0 %	\$ (3,746,000)

The components of annual pension cost and prepaid pension obligation for the second single-employer noncontributory defined benefit pension plan are as follows:

	2000
Service cost - benefits earned during the year	\$ 54,916
Interest cost on projected benefit obligation	4,848
Expected return on assets	(68)
Net amortization and deferral	<u>(580)</u>
Annual pension cost	59,116
Contributions made	(51,529)
Additional minimum liability	<u>217,541</u>
Increase in pension obligation	225,128
Pension obligation, beginning of year	<u>35,544</u>
Pension obligation, end of year	<u>\$ 260,672</u>

The annual pension cost for the current year was determined as part of the September 2000 actuarial valuation using the aggregate actuarial cost method, which does not identify and separately amortize unfunded actuarial liabilities. Actual value of assets was determined using market value. The discount rate and estimated rate of increase in future compensation levels used in determining the actuarial present value of the projected benefit obligation for 2000 were 8.0 percent and 5.0 percent, respectively. The expected long-term rate of return

on assets used in determining net periodic pension cost was 8.0 percent.

The following table sets forth the plan's funded status and the related amounts recorded in the Authority's balance sheets at June 30, 2000.

Trend Information			
Fiscal Year Ended June 30	Annual Pension Cost (APC)	Percentage of APC Contributed	Prepaid Pension Obligation
2000	\$ 59,116	87 %	\$ 260,672
1999	\$ 35,544	0 %	\$ 35,544

The Authority also sponsors two noncontributory supplemental plans covering certain key employees. The Authority's current policy is not to fund the costs of these plans. The plans had assets of \$2,153,145 and an accrued liability of \$1,995,537.

The Medical College of Virginia Hospitals Authority contributes to the VRS. The VRS issues a separate stand-alone report that is publicly available as previously discussed. Effective July 1, 1997, the Authority established the Medical College of Virginia Hospitals Authority Defined Contribution Plan (the Plan). All employees working at least 35 hours of service per week are eligible to participate in the Plan. At June 30, 2000, there were 1,993 participants in the Plan. Per the Plan document as approved by the Authority's Board of Directors, the Authority contributes 8.0 percent of the participant's salary to the Plan, up to a maximum of \$30,000. Total contributions for the year ended June 30, 2000, were approximately \$5,391,000. The Authority has the right at anytime, and without the consent of any party, to terminate the Plan in its entirety. The Authority's Board of Directors must approve any changes to the provisions of the Plan, including the contribution requirements, in writing. In addition, the Authority has reported approximately \$32.4 million as restricted assets for the Plan. The Authority has also established the Medical College of Virginia Hospitals Authority Health Care Providers Defined Contribution Plan (the HCP Plan). All persons hired as a health care provider on or after July 1, 1993, and prior to July 1, 1997, and working at least 35 hours of service per week are eligible to participate in the HCP Plan. At June 30, 2000, there were 11 participants in the HCP Plan. All significant provisions of the HCP Plan, including the contribution requirements, are similar to the Plan. Total contributions to the HCP Plan for the year ended June 30, 2000, were approximately \$47,000.

The Virginia Equine Center Foundation has a defined contribution plan which covers all full-time employees of the Foundation who have one year of service and are age twenty-one or older. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974. Contributions to the plan are discretionary and the Foundation will determine the amount to contribute

to the plan each year. Total contributions for the year ended June 30, 2000, were \$35,808.

13. OTHER EMPLOYMENT BENEFITS

In addition to the pension plans, the Commonwealth participates in two other postemployment benefit plans administered by the Virginia Retirement System. Those two plans are Group Life Insurance and Retiree Health Insurance Credit. The significant accounting policies for both plans are the same as those described in Note 12 for pension plans. A separately issued financial report that includes financial statements for each of the individual plans is publicly available. Copies may be obtained by writing to Virginia Retirement System, P. O. Box 2500, Richmond, Virginia 23218-2500.

Group Life Insurance

The Group Life Insurance Plan provides life insurance benefits for State employees, teachers, employees of political subdivisions participating in the Virginia Retirement System (VRS), State police officers, judges and other qualifying employees.

As part of this plan, the State provides life insurance benefits for retired employees in accordance with Title 51.1 of the *Code of Virginia*. To be eligible, the employee must have retired or terminated employment after age 55 and have had five years of continuous service or retired because of disability. At retirement or termination, natural death coverage starts to reduce by 2 percent each month until coverage reaches 25 percent of its value at retirement or termination.

Postemployment life insurance benefits are advance funded on an actuarially determined basis using the aggregate cost actuarial method. Rates were determined in a June 30, 1996, actuarial valuation using the same actuarial assumptions used for determining pension plan contribution rates. Retirees are not required to contribute to the group life plan. The Commonwealth's actuarially required contribution rate for the current year was 0.72 percent of payroll. This contribution covers premiums for active employees and actual death claims for retirees. Based on a statutory requirement, the Commonwealth did not make contributions during the fiscal year.

Retiree Health Insurance Credit

The Retiree Health Insurance Credit Plan provides health insurance credits against the monthly health insurance premiums for retired State employees, State police officers, and judges with at least 15 years of creditable service. Benefit provisions and eligibility requirements are established by Title 2.1 of the *Code of Virginia*.

The monthly credit amounts to \$4.00 per year of service not to exceed a maximum allowance of \$120.00. The contribution rate was determined as part of the June 30, 1996, actuarial valuation that determined the pension plan contribution rates. The Commonwealth's actuarially required contribution rate for the current year was 0.68 percent of payroll. Based on a statutory require-

ment, the Commonwealth did not make contributions during the fiscal year.

14. DEFERRED COMPENSATION PLANS

The Commonwealth offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Virginia Retirement System (VRS) administers the deferred compensation plan, pursuant to the Government Employees Deferred Compensation Plan Act, Section 51.1, Chapter 6 et seq. of the *Code of Virginia*. The VRS contracts with private corporations or institutions subject to the standards set forth in the *Code* to provide investment products as well as any other goods and services related to the administration of the deferred compensation plan. The Department of Accounts is responsible for the accounting, reconciliations, and record keeping associated with State employees' enrollment, payment to the plan through payroll deductions, and timely transfer of withheld funds to the trustee designated by the VRS for investment. The plan is designed so that each participant retains investment control of his/her individual account. The investment options range from a guaranteed rate of return to an aggressive growth fund account that seeks growth of capital. The plan, available to all State employees, permits them to defer a portion of their salary until future years. The deferred compensation is held in trust for the exclusive benefit of plan participants and their beneficiaries and is not available to employees until termination, retirement, death, or unforeseeable emergency. Since the VRS has no fiduciary relationship with plan participants, plan assets of \$456.8 million are not included in the financial statements.

In addition, the Commonwealth provides a cash match under Internal Revenue Code Section 401(a) for employees participating in the deferred compensation plan who have been employed at least one year. This program was effective with the April 14, 2000, pay date. The match amount for an employee was established at 50 percent of the voluntary contributions to the deferred compensation plan with a maximum match of \$10 per pay period or \$20 per month. The fair value of assets in the cash match savings plan at June 30, 2000, was \$1.1 million, which is also excluded from the financial statements.

The Virginia Housing Development Authority (Component Unit) has a deferred compensation plan available to all employees created in accordance with Internal Revenue Section 457. The Plan permits participants to defer a portion of their salary or wage until future years. The deferred compensation is not available to employees until termination, retirement, or death. The assets of the Plan are in an irrevocable trust with an external trustee and, accordingly, no assets or liabilities are reflected in the financial statements.

The Virginia Port Authority (VPA) (Component Unit) offers a deferred compensation plan and matching savings plan under Internal Revenue Code Sections 457 and 401(a), respectively, that cover substantially all nonunion employees with 90 days or more of service. The Plans require VPA to match employee contributions in an amount equal to 50 percent of the first 3 percent of

the participant's base pay contributed to the Plan. The Authority's total contribution to these Plans was \$233,163 for the year ended June 30, 2000.

15. COMMITMENTS

A. Construction Projects

Highway Projects

At June 30, 2000, the Department of Transportation (Primary Government) had contractual commitments of approximately \$1,681.4 million for construction of various highway projects. Funding of these future expenditures is expected to be provided as follows: (1) Federal Funds – approximately 18.6 percent or \$312.0 million, (2) State Funds – approximately 72.8 percent or \$1,223.5 million, and (3) Proceeds from Bonds – approximately 8.6 percent or \$145.9 million.

Mass Transit Projects

At June 30, 2000, the Department of Rail and Public Transportation (Primary Government) had contractual commitments of approximately \$59.9 million for various public transportation and rail preservation projects. Funding of the future expenditures is expected to be as follows: (1) Federal Funds – approximately 22 percent or \$13.0 million, and (2) State Funds – approximately 78 percent or \$46.9 million.

Port Projects

At June 30, 2000, the Virginia Port Authority (Component Unit) was committed to construction contracts totaling \$100.4 million.

Sanitation District Project

At June 30, 2000, the Hampton Roads Sanitation District Commission (Component Unit) was committed to construction programs totaling \$41.0 million.

Medical College of Virginia Project

At June 30, 2000, the Medical College of Virginia Hospitals Authority (Component Unit) was committed to construction projects totaling \$84.2 million.

Higher Education Funds

Many of the colleges and universities are committed to construction contracts. As of June 30, 2000, these commitments totaled approximately \$167.7 million.

B. Operating Leases

The Commonwealth has entered into numerous agreements to lease land, buildings, and equipment. Most of the operating leases contain the provision that the Commonwealth may renew the operating leases at the expiration date of the lease on

a month-to-month basis. In most cases, management expects that in the normal course of business, leases will be renewed or replaced by other leases of a similar nature. Rental expense for the primary government under these operating leases for the year ended June 30, 2000, was \$61.7 million. Rental expense for the discrete component units for the year ended June 30, 2000, was \$34.4 million. The Commonwealth has, as of June 30, 2000, the following minimum rental payments due under the above leases:

	Primary Government	Component Units	Totals
2001	\$ 49,924,300	\$ 19,583,412	\$ 69,507,712
2002	33,109,026	13,270,596	46,379,622
2003	24,641,171	10,698,648	35,339,819
2004	16,808,352	12,290,038	29,098,390
2005	11,126,229	5,352,824	16,479,053
After 2005	37,507,231	25,699,850	63,207,081
Total	<u>\$ 173,116,309</u>	<u>\$ 86,895,368</u>	<u>\$ 260,011,677</u>

Lease agreements are for various terms and all leases contain nonappropriation clauses indicating that continuation of the lease is subject to funding by the General Assembly.

C. Investment Commitments – Virginia Retirement System

The Virginia Retirement System (VRS) extends investment commitments in the normal course of business, which, at June 30, 2000, amounted to \$1.5 billion.

16. ACCRUED LIABILITY FOR COMPENSATED ABSENCES

Employees accrue annual leave at a rate of four to seven hours semimonthly, depending on their length of service. The maximum accumulation is dependent upon years of service, but in no case may it exceed 336 hours.

All employees hired after January 1, 1999, are required to enroll in the Virginia Sickness and Disability Program (VSDP) (see Note 17). Under the VSDP, employees receive a specified number of sick and personal leave hours, depending on their length of service, and any balances at the end of the calendar year revert. Individuals employed at January 1, 1999, had the option of converting to the VSDP or remaining in the original sick leave plan. If converting, the employee's sick leave balance could be used to purchase retirement credits or be converted to disability credits. If an employee opted to remain in the original sick leave program, sick leave accrues at a rate of five hours semimonthly. Employees who leave State service after a minimum of five years employment receive the lesser of 25 percent of the value of their disability credits or accumulated sick leave at their current earnings rate or \$5,000. All employees leaving State service are paid for accrued annual leave

up to the maximum calendar year limit at their current earnings rate.

In conformance with Section C60 of GASB Codification, the monetary value of accumulated annual and sick leave and disability credits payable upon termination is included in the accompanying financial statements. In the governmental fund types, amounts to be paid from expendable available resources are recognized as fund liabilities in the applicable governmental fund types (see Note 20). Amounts not payable from expendable resources are reflected in the General Long-Term Debt Account Group (see Note 19). All amounts related to the proprietary funds, trust funds, and the discrete component units are recognized in those funds (see Notes 19 and 20). The liability at June 30, 2000, was computed using salary rates effective at that date, and represents vacation, compensatory and sick leave earned or disability credits held up to the allowable ceilings. In accordance with GASB Statement No. 16, *Accounting for Compensated Absences*, an additional liability amount has been included for those employees remaining in the original sick leave program with less than 5 years of service based on the probability that they will eventually become vested. Also included in the liability is the Commonwealth's share of FICA taxes on leave balances for which employees will be compensated.

17. VIRGINIA SICKNESS AND DISABILITY PROGRAM

The Virginia Retirement System (System) administers the Virginia Sickness and Disability Program to provide income protection for absences due to sickness or disability from the first day on the job. After a seven calendar-day waiting period following the first incident of disability, eligible employees receive short-term disability benefits ranging from 60 to 100 percent of compensation up to a maximum of 125 work days, based upon months of State service. After a 180 calendar-day waiting period (125 work days of short-term disability), eligible employees receive long-term disability benefits equal to 60 percent of compensation until they return to work, until age 65 (age 60 for State police officers), or until death.

The VSDP was established on January 1, 1999, for all full-time, classified State employees, including State police officers and other State law enforcement and corrections officers, hired on or after January 1, 1999. Part-time, classified employees who work at least 20 hours a week on a salaried basis and who accrue leave are also covered. Eligible State employees and State police officers of the Commonwealth employed prior to January 1, 1999, had the option to elect to participate in the VSDP or to remain in the Commonwealth's existing disability retirement and sick leave program (see Notes 12 and 16). Eligible employees enrolled in the VSDP are not eligible for disability retirement benefits under the Virginia Retirement System (VRS), the State Police Officers' Retirement System (SPORS), or the Virginia Law Officers Retirement System (VaLORS).

Faculty of Virginia institutions of higher education, hired or appointed on or after January 1, 1999, who elected the VRS as their retirement plan, must make an irrevocable election to participate in the VSDP or in the insti-

tution's disability program. If there is no institution program, the faculty is covered under this program.

All State agencies are required to contribute to the cost of providing long-term disability benefits. Initial contribution requirements to fund the program were determined by the System's actuary based on an estimate of the amount of the liability for disability benefits that would transfer from the VRS and SPORS to the VSDP for the anticipated new participants in the VSDP. This contribution requirement was 0.83 percent of payroll for State and VaLORS employees and 1.10 percent of payroll for State police officers during the fiscal year. The financial activity related to this program is reported in the Internal Service Fund.

18. INSURANCE

A. Self-Insurance

The Commonwealth maintains two types of self-insurance plans. The first type of self-insurance is a health care plan administered by the Department of Personnel and Training for State employees. The plan is accounted for in the Health Care – Internal Service Fund. Interfund premiums are accounted for as quasi-external transactions. At June 30, 2000, \$57.1 million is reported as the estimated claims payable for this fund. The estimated liability is based upon actual claims that have been submitted as well as actuarially determined claims incurred but not reported as described in Note 1.N. Changes in the balances of claims liabilities (reported in thousands of dollars) during the current and prior fiscal years are as follows:

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year End
1999-2000 \$	53,357	\$ 395,332	\$ (391,605)	\$ 57,084
1998-1999 \$	54,332	\$ 355,011	\$ (355,986)	\$ 53,357

The second type of plan, risk management insurance, is administered by the Department of General Services, Division of Risk Management, and is accounted for in the Risk Management – Internal Service Fund. Interfund premiums are accounted for as quasi-external transactions. Risk management insurance includes workers' compensation, property, general (tort) liability, medical malpractice, and automobile plans. At June 30, 2000, \$173.7 million is reported as the estimated claims payable for these self-insurance plans. The estimated losses are based upon actual claims that have been submitted, as well as claims incurred but not reported. Changes in the balances of claims liabilities (reported in thousands of dollars) during the current and prior fiscal years are as follows:

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year End
1999-2000 \$	171,894	\$ 51,951	\$ (50,124)	\$ 173,721
1998-1999 \$	170,488	\$ 50,760	\$ (49,354)	\$ 171,894

For workers' compensation, the Commonwealth assumes the full risk of claims filed. For tort, including general and automobile liability, liability is assumed to \$2,000,000 per occurrence. Medical malpractice liability is assumed to \$1,000,000 per occurrence. For property damage, Risk Management purchases \$400,000,000 of insurance with a \$1,000,000 deductible.

The Virginia Port Authority (Component Unit) is partially self-insured for certain workers' compensation claims. The Authority maintains insurance coverage of \$5,000,000 per claim, but is obligated to pay the first \$1,000,000 of any individual's claims per incident at June 30, 2000. The Authority is also partially self-insured for employee health coverage. The Authority is responsible for actual claim costs up to \$75,000 per individual per year. Insurance coverage is maintained for claims in excess of the individual employee limit and for aggregate claims in excess of \$1,743,499.

B. Public Entity Risk Pools

The Commonwealth administers two types of public entity risk pools for the benefit of local governmental units: health care and risk management insurance. The Local Choice Health Care plan was established to make comprehensive health care insurance available to localities and political subdivisions at affordable rates and with stable premiums. During the fiscal year, there were 209 local government units participating in the pool. This includes 25 school districts, 25 counties, 76 cities/towns, and 83 other subdivisions. This program is accounted for in the Local Choice Health Care – Enterprise Fund.

The Department of Personnel and Training, under Section 2.1–20.1 of the *Code of Virginia*, has the authority to design, set rates, and administer the Local Choice Health Care fund. The pool's standard contract period is one year. However, a member group may withdraw on the last day of any month with three month's written notice. Contributions are based on the current necessary contribution and the amortization of experience adjustments in the pool. At June 30, 2000, \$8.5 million is reported as the actuarially determined estimated claims payable for this fund based on claims incurred but not reported.

The actuarial liability is determined for the membership pool in total and then adjusted for each locality based on individual historic and demographic data. If the pool's assets were to be exhausted, the program participants would share the responsibility for any liabilities or deficits.

The Department of General Services, Division of Risk Management administers risk management pools for errors and omissions liability insurance and law enforcement professional liability insurance in accordance with Section 2.1–526.8:1 of the *Code of Virginia*. They also administer a commuter rail liability pool for both the Northern Virginia and the Potomac & Rappahannock Transportation Commissions. These pools were established to provide an economical low-cost, internally managed alternative to the commercial insurance market for the Commonwealth's political subdivisions. These risk programs are accounted for in the Risk Management – Enterprise Fund. The pool is established subject to the approval of the Governor. It may be insurance, self-insurance, or any combination thereof, and must provide protection and legal defense against liability. Local participation is voluntary and open to any political subdivision. As of June 30, 2000, there were 1,427 units of local government in the pool. This includes all 135 sheriffs, 115 commonwealth attorneys, 124 clerks of the court, 39 cities, 185 towns, 95 counties, 131 treasurers, and 128 commissioners of revenue. The balance includes a large variety of boards, commissions, authorities, and special districts.

The pool has a minimum membership period of one year. However, a member group can cancel their membership and withdraw from the plan on their coverage anniversary date or at the end of the fiscal year with thirty days notice.

The pool is actuarially valued annually and is considered sound. Investment income is considered in the anticipation of premium deficiencies. No excess insurance or reinsurance is provided, but a "stability fund" is incorporated into the actuarially determined required reserves. If, however, the plan assets and reserves were to be exhausted, the members would be responsible for any deficits or liabilities.

At June 30, 2000, \$9.0 million is reported as estimated claims payable for these programs. This figure is actuarially determined for the fund in total and is reported at gross and does not reflect possible reimbursements for insurance recoveries.

The following schedule (reported in thousands of dollars) shows the changes in claims liabilities for the past two fiscal years.

	Local Choice Health Care		Risk Management	
	June 30, 1999	June 30, 2000	June 30, 1999	June 30, 2000
Unpaid Claims and Claim Adjustment Expenses at Beginning of Fiscal Year	\$ 8,200	\$ 8,529	\$ 8,265	\$ 6,905
Incurred Claims and Claim Adjustment Expenses:				
Provision for Insured Events of the Current Fiscal Year	65,406	70,998	3,786	3,934
Changes in Provision for Insured Events of Prior Fiscal Years	-	-	(229)	986
Total Incurred Claims and Adjustment Expenses	65,406	70,998	3,557	4,920
Payments:				
Claims and Claim Adjustment Expenses Attributable to Insured Events of the Current Fiscal Year	65,077	71,047	439	196
Claims and Claim Adjustment Expenses Attributable to Insured Events of the Prior Fiscal Year	-	-	4,639	2,922
Total Payments	65,077	71,047	5,078	3,118
Change in Provision for Discounts	-	-	161	304
Total Unpaid Claims and Claim Adjustment Expenses at End of the Fiscal Year (Discounted)	\$ 8,529	\$ 8,480	\$ 6,905	\$ 9,011
Total Unpaid Claims and Claim Adjustment Expenses at End of the Fiscal Year (Undiscounted)	\$ 8,529	\$ 8,480	\$ 7,364	\$ 9,816

For the liability insurance pool, local participation is voluntary and open to any political subdivision. The risk assumed by the local public entity pool for member liability is \$1,000,000 per occurrence. The commuter rail liability pool was established to fulfill the liabilities of the Commissions. As a result of the Commissions' agreement with several localities, participating localities contribute to the pool based on the number of residents riding the commuter rail and their total population. This pool assumes liability up to \$5,000,000 per occurrence, and commercial insurance has been purchased to pay larger claims subject to an annual aggregate limit of \$200,000,000.

Certain 9(d) bonds are considered, with 9(a), 9(b), and 9(c) bonds, to be tax-supported debt of the Commonwealth. Tax-supported debt includes all bond issues supported by State tax revenues (net of sinking fund requirements) and short-term debt, for which debt service payments are made or are ultimately pledged to be made from general governmental funds.

Other 9(d) revenue bonds are considered non-tax supported. For this debt, the Commonwealth has no direct or indirect pledge of tax revenues. However, in some cases, the Commonwealth has made a moral obligation pledge to consider funding deficiencies in debt service reserves that may occur. These bonds are considered to be moral obligation debt.

19. LONG-TERM LIABILITIES

Commonwealth bonds are issued pursuant to Section 9 of Article X of the Constitution of Virginia. Section 9(a) bonds have been issued to redeem previous debt obligations. Section 9(b) bonds have been authorized by the citizens of Virginia through bond referenda to finance capital projects. These bonds are retired through the use of State appropriations. Section 9(c) bonds are issued to finance capital projects which, when completed, will generate revenue to repay the debt. Section 9(a), 9(b) and 9(c) bonds are tax-supported general obligation bonds and are backed by the full faith, credit, and taxing power of the Commonwealth.

Section 9(d) bonds are revenue bonds and are not backed by the full faith, credit and taxing power of the Commonwealth. These bonds are not general obligation bonds and are not deemed to constitute a legal liability of the Commonwealth. This debt may be supported by State appropriations in whole or in part, as in the case of certain debt of the VPA (Component Unit), VPBA (Primary Government), ITA (Component Unit), and VCBA (Component Unit). Other 9(d) revenue bonds are payable from general revenues of the component units, or from revenues of specific revenue-producing capital projects such as the teaching hospitals, dormitories, student centers, and dining halls at the various State colleges and universities (Component Units). Additionally, the 9(d) Transportation Bonds (Primary Government) are payable solely from revenues or earnings, and other available sources of funds appropriated by the General Assembly. The 9(d) Pocahontas Parkway Association Bonds (Primary Government) are special, limited obligations of the Association, secured by a gross revenue pledge and payable solely from revenues prior to payment of current expenses and from monies held in certain funds and accounts held in trust.

The following schedule presents the total long-term liabilities of the Commonwealth as reported on the Combined Balance Sheet.

Total Long-Term Liabilities

June 30, 2000

(Dollars in Thousands)

Primary Government:

General Obligation Bonds (5):

General Long-Term Debt Account Group:

9(b) Transportation Facilities	\$ 60,300
9(b) Public Facilities	460,405
9(c) Parking Facilities	11,010
9(c) Transportation Facilities (1)	134,144

Total General Obligation Bonds 665,859

Non-General Obligation Bonds - 9(d):

Transportation Debt	943,625
Pocahontas Parkway Association Bonds (1) (4)	393,238
Virginia Public Building Authority (1)	1,049,984

Total Non-General Obligation Bonds 2,386,847

Other Long-Term Obligations:

Pension Liability	172,780
Compensated Absences	297,716
Long-Term Capital Lease Obligations	213,314
Long-Term Regional Jail Financing Payable	59,671
Notes Payable	12,325
Installment Purchase Obligations	26,672
Other Liabilities	5,318

Total Other Long-Term Obligations 787,796

Total Primary Government 3,840,502

Component Units:

General Obligation Bonds (5):

Higher Education Fund - 9(c) Bonds (1) 380,332

Total General Obligation Bonds 380,332

Non-General Obligation Bonds:

Higher Education Institutions - 9(d) (4)	376,113
Virginia College Building Authority	272,460
Innovative Technology Authority	11,656
Virginia Port Authority (2)	197,630
Virginia Housing Development Authority (1) (3)	5,412,947
Virginia Resources Authority (1) (3)	454,179
Virginia Public School Authority (1) (3)	1,787,573
Hampton Roads Sanitation District Commission (4)	166,860
Virginia Equine Center Foundation (4)	6,305
Virginia Biotechnology Research Park Authority (6)	45,435
Medical College of Virginia Hospitals Authority 9(d)(4)	87,480

Total Non-General Obligation Bonds 8,818,638

Other Long-Term Obligations:

Pension Liability	90,258
Compensated Absences	164,671
Long-Term Capital Lease Obligations	29,113
Notes Payable	323,831
Installment Purchase Obligations	28,009
Other Liabilities (4)	28,581

Total Other Long-Term Obligations 664,463

Total Component Units 9,863,433

Total Long-Term Liabilities \$ 13,703,935

1. Net of unamortized discounts.
2. This debt includes \$95.0 million that is not supported by taxes.
3. This debt is not supported by taxes; however, \$1.439 billion from VHDA, \$487.2 million from VPSA, and \$454.2 million from VRA is considered moral obligation debt.
4. This debt is not supported by taxes.
5. Total general obligation debt of the Commonwealth is \$1.046 billion.
6. This debt includes \$16.2 million that is not supported by taxes.

Primary Government

Transportation Facilities Bonds

Transportation Facilities Bonds include \$60,300,000 of 9(b) general obligation bonds, \$134,143,991 of 9(c) general obligation bonds, and \$943,625,000 of 9(d) revenue bonds. Principal and interest requirements for the current year totaled \$99,355,345. The Section 9(b) transportation facilities bonds represent Powhite Refunding Bonds, Series 1993A, which were issued to refund Series 1986 9(c) Transportation Facilities Bonds. The Section 9(c) Transportation Facilities Bonds were issued to fund the construction, improvement and operation of the Omer L. Hirst - Adelard L. Brault Expressway and the George P. Coleman Bridge. The Section 9(d) Transportation Facilities Bonds were issued to fund the construction of State Route 28, U.S. Route 58, the Northern Virginia Transportation District Program, and the Oak Grove Connector (Chesapeake). The interest rates for these bonds range from 2.4 percent to 7.25 percent and the issuance dates range from June 28, 1989, to December 1, 1999. The following schedules detail the annual funding requirements necessary to amortize Transportation Facilities 9(b), 9(c) and 9(d) bonds:

9(b) TRANSPORTATION FACILITIES BONDS Debt Service Requirements to Maturity

Maturity	Principal	Interest	Total
2001	\$ 3,715,000	\$ 2,935,223	\$ 6,650,223
2002	3,890,000	2,762,165	6,652,165
2003	4,115,000	2,575,993	6,690,993
2004	4,310,000	2,375,850	6,685,850
2005	4,550,000	2,160,935	6,710,935
2006-2012	39,720,000	7,681,598	47,401,598
Total	\$ 60,300,000	\$ 20,491,764	\$ 80,791,764

9(c) TRANSPORTATION FACILITIES BONDS Debt Service Requirements to Maturity

Maturity	Principal	Interest	Total
2001	\$ 9,204,000	\$ 5,808,876	\$ 15,012,876
2002	9,589,000	5,421,533	15,010,533
2003	9,804,000	5,170,570	14,974,570

2004	31,150,000	46,571,154	77,721,154
2005	32,860,000	44,883,034	77,743,034
2006-2036	795,150,000	404,092,509	1,199,242,509
Total	\$ 943,625,000	\$ 644,266,392	\$ 1,587,891,392

Pocahontas Parkway Association Bonds

The Pocahontas Parkway Association Bonds include \$168,869,843 of Series 1998A revenue bonds, \$166,106,059 of Series 1998B capital appreciation bonds, \$40,261,947 of Series 1998C capital appreciation bonds, and \$18,000,000 of Series 1998D toll road revenue bonds. These bonds were issued to finance the Route 895 Connector Toll Road Project. The interest rates on the Series 1998A bonds range from 5.0 percent to 5.5 percent and the issuance date was July 9, 1998. Interest paid on all indebtedness approximated \$9,287,000 and \$5,986,000 in fiscal years 2000 and 1999, respectively.

The Series 1998B capital appreciation bonds were issued on July 9, 1998, in the principal amount of \$148,310,626 and the maturity value of \$690,200,000. These bonds mature in annual installments on August 15, in the years 2012 through 2025 and 2029 through 2036. Series 1998B bonds were issued to yield approximately 5.50 percent to 5.95 percent. Principal accreted for the year ended June 30, 2000, was \$9,254,428.

The Series 1998C capital appreciation bonds were issued on July 9, 1998, in the principal amount of \$35,867,236 and the maturity value of \$137,300,000. These bonds mature in annual installments on August 15, in the years 2005 through 2036. Series 1998C bonds were issued to yield approximately 5.40 percent to 6.25 percent. Principal accreted for the year ended June 30, 2000, was \$2,286,822.

The Series 1998D toll road revenue bonds were issued on July 9, 1998, in the principal amount of \$18,000,000 to the Commonwealth Transportation Board. The Series 1998D bond was issued in exchange for \$18,000,000 loaned to the Association for paying certain non-construction costs of the Project, and matures on August 15, 2028. The Series 1998D bond bears interest at a floating rate equal to the Department's Transportation Trust Fund Earnings Rate, compounded semiannually. The Series 1998D bond bears interest from the date that amounts are advanced from the Series 1998D Bond Proceeds Account for application to non-construction costs of the Project on the amount of such advances until paid. Also earnings on the Series 1998D Bond Proceeds Account are transferred monthly to the Department. The original proceeds disbursed for non-construction costs, as of June 30, 2000, were \$17,600,600 and accrued interest was \$1,232,075. The monthly interest rate at June 30, 2000, was 6.00 percent.

The following schedule details the annual funding requirements necessary to repay the Series 1998A, 1998B, 1998C and 1998D bonds:

9(d) POCAHONTAS PARKWAY ASSOCIATION BONDS Debt Service Requirements to Maturity

Maturity	Principal	Interest	Total
2001	\$ -	\$ 9,121,250	\$ 9,121,250
2002	-	9,121,250	9,121,250
2003	-	9,121,250	9,121,250
2004	-	9,121,250	9,121,250
2005	-	9,121,250	9,121,250
2005 - 2036	1,015,200,000	156,057,875	1,171,257,875
Less:			
Unamortized Discount	(830,157)	-	(830,157)
Unaccreted Capital Appreciation Bonds	(621,131,994)	-	(621,131,994)
Total	\$ 393,237,849	\$ 201,664,125	\$ 594,901,974

Public Facilities Bonds

Section 9(b) general obligation bonds consist of Public Facilities Bonds, Series 1993 A and B, Series 1994, Series 1996, Series 1996 refunding, Series 1997, Series 1998 refunding, and Series 1998 bonds. Series 1993, 1994, 1996, 1997, 1998, and 1999A bonds were issued to fund construction projects for higher educational institutions, mental health, and park facilities. Principal and interest requirements for the current year totaled \$55,061,039. The interest rates for these bonds range from 3.2 percent to 6.4 percent and the issuance dates range from January 1, 1993, to October 20, 1999. The following schedule details the annual funding requirements necessary to repay these bonds:

9(b) PUBLIC FACILITIES BONDS Debt Service Requirements to Maturity

Maturity	Principal	Interest	Total
2001	\$ 30,680,000	\$ 23,241,373	\$ 53,921,373
2002	30,720,000	21,666,859	52,386,859
2003	30,750,000	20,095,776	50,845,776
2004	30,785,000	18,513,354	49,298,354
2005	30,825,000	16,885,966	47,710,966
2006 - 2019	306,645,000	84,361,430	391,006,430
Total	\$ 460,405,000	\$ 184,764,758	\$ 645,169,758

Parking Facilities Bonds

Section 9(c) general obligation bonds consist of Parking Facilities Bonds, Series 1991A, Series 1993B refunding bonds, Series 1996 and Series 1996 refunding bonds. Series 1991A bonds were issued to fund the State Corporation Commission and the Bank Street parking decks operated by the Department of General Services. Series 1993B bonds were issued to advance refund outstanding 1991A series bonds. Series 1996 bonds were issued to fund the renovation of the Seventh and Marshall Street parking deck. The interest rates for these bonds range from 3.5 percent to 6.0 percent and the issuance dates range from December 1, 1991, to June 6, 1996. Current year principal and interest requirements totaled \$1,240,546.

The following schedule details the annual funding requirements necessary to repay these bonds:

9(c) PARKING FACILITIES BONDS
Debt Service Requirements to Maturity

Maturity	Principal	Interest	Total
2001	\$ 685,000	\$ 553,791	\$ 1,238,791
2002	720,000	514,560	1,234,560
2003	765,000	479,795	1,244,795
2004	800,000	442,733	1,242,733

2006-2016	7,205,000	1,701,589	8,906,589
Total	<u>\$ 11,010,000</u>	<u>\$ 4,097,277</u>	<u>\$ 15,107,277</u>

Virginia Public Building Authority

The Virginia Public Building Authority (VPBA) has issued Section 9(d) revenue bonds for the purpose of constructing, improving, furnishing, maintaining, and acquiring public buildings for the use of the Commonwealth and also to reimburse localities, regional jail authorities or other combination of localities under the Regional Jail Financing Program. The interest rates for these bonds range from 2.5 percent to 7.375 percent and the issuance dates range from October 31, 1988, to May 1, 1999. Current year principal and interest requirements totaled \$97,855,880. The following schedule details the annual funding requirements necessary to repay these bonds:

9(d) VIRGINIA PUBLIC BUILDING AUTHORITY BONDS
Debt Service Requirements to Maturity

Maturity	Principal	Interest	Total
2001	\$ 59,395,000	\$ 48,364,052	\$ 107,759,052
2002	64,500,000	46,650,708	111,150,708
2003	66,655,000	43,217,769	109,872,769
2004	70,360,000	39,599,223	109,959,223
2005	60,140,000	36,585,229	96,725,229
2006 - 2020	763,430,000	234,293,742	997,723,742
Less: Unamortized Discount	<u>(34,496,384)</u>	<u>-</u>	<u>(34,496,384)</u>
Total	<u>\$ 1,049,983,616</u>	<u>\$ 448,710,723</u>	<u>\$ 1,498,694,339</u>

Regional Jail Financing Program

The Regional Jail Financing Program of the Commonwealth of Virginia Treasury Board was created during the 1993 Session of the General Assembly to establish a method of reimbursing localities, regional jail authorities or other combination of localities for a portion of the capital and financing costs of a jail project, made pursuant to Sections 53.1-80, 53.1-81, or 53.1-82 of the *Code of Virginia*. The General Assembly, upon recommendation from the Department of Planning and Budget, may determine to reimburse localities for approved capital costs over time through a contractual Reimbursement Agreement between the localities or authority and the Treasury Board. The Board of Corrections determines the amount of reimbursable capital costs. If approved for reimbursement over time, the Treasury Board determines the amount of reimbursable financing costs and calculates the periodic reimbursement payments.

In 1996, the General Assembly adopted legislation that authorized funding of jail project reimbursements through bonds issued by the Virginia Public Building Authority (VPBA). As of June 30, 1998, all future jail reimbursements were approved for funding through the VPBA as opposed to the Treasury Board. All reimbursements, whether up front or over time, are subject to appropriation by the General Assembly. The following schedule details the annual funding requirements necessary to repay these obligations:

REGIONAL JAILS FINANCING
Financial Obligations to Maturity

Calendar Year Obligations	Capital Costs	Financing Costs	Total
2001	\$ 3,065,306	\$ 3,340,900	\$ 6,406,206
2002	3,171,184	3,230,989	6,402,173

Innovative Technology Authority

The Innovative Technology Authority (ITA) has issued Taxable Lease Revenue Bonds, Series 1989, and Series 1997 refunding. The Series 1989 bonds were issued to cover a portion of the costs related to the construction of a software development center and office building. Series 1997 bonds were issued to advance refund \$11.2 million of the outstanding 1989 bonds.

The 1989 bonds had an average interest rate of 10.3 percent and the 1997 bonds have an average interest rate of 7.4 percent. The bonds were issued on March 1, 1989, and May 1, 1997, respectively. The following schedule details the annual funding requirements necessary to amortize ITA bonds:

9(d) INNOVATIVE TECHNOLOGY AUTHORITY BONDS Debt Service Requirements to Maturity

Maturity	Principal	Interest	Total
2001	\$ 535,000	\$ 853,288	\$ 1,388,288
2002	530,000	816,801	1,346,801

2004	620,000	736,587	1,356,587
2005	710,000	692,691	1,402,691
2006-2014	8,636,000	3,511,460	12,147,460
Total	<u>\$ 11,656,000</u>	<u>\$ 7,391,164</u>	<u>\$ 19,047,164</u>

Governmental Funds – Discrete Component Units

Virginia Port Authority

The Virginia Port Authority (VPA) has issued Section 9(d) revenue bonds and notes pursuant to powers provided to its Board of Commissioners by the *Code of Virginia*. The interest rates for these bonds range from 4.2 percent to 6.0 percent and the issuance dates range from October 23, 1996, to April 2, 1998. Series 1998 bonds were issued to advance refund \$71.1 million of the outstanding 1988 bonds. The following schedule details the annual funding requirements necessary to amortize VPA bonds:

9(d) VIRGINIA PORT AUTHORITY DEBT Debt Service Requirements to Maturity			
Maturity	Principal	Interest	Total
2001	\$ 10,245,000	\$ 10,583,794	\$ 20,828,794
2002	10,710,000	10,119,979	20,829,979
2003	11,225,000	9,612,254	20,837,254
2004	11,760,000	9,074,200	20,834,200
2005	12,335,000	8,499,250	20,834,250
2006-2027	141,355,000	78,110,458	219,465,458
Total	<u>\$ 197,630,000</u>	<u>\$ 125,999,935</u>	<u>\$ 323,629,935</u>

Proprietary Funds – Discrete Component Units

The Virginia Housing Development Authority (VHDA), the Virginia Resources Authority (VRA) and the Virginia Public School Authority (VPSA) issued Section 9(d) revenue bonds. The interest rates for these bonds range from 2.1 percent to 10.88 percent and the origination dates range from December 1, 1973, to March 31, 2000. The following schedules detail the annual funding requirements necessary to amortize these bonds:

9(d) VIRGINIA HOUSING DEVELOPMENT AUTHORITY BONDS Debt Service Requirements to Maturity

Bond Defeasance

Government Accounting Standards Board Statement No. 7, Advance Refundings Resulting in Defeasance of Debt, provides that refunded debt and assets placed in escrow for the payment of related debt service be excluded from the financial statements. As of June 30, 2000, there were \$415.4 million in bonds from Primary Government that have been refunded and defeased in substance from the General Long-Term Debt Account Group by placing existing assets and the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments. In addition, there were \$304.0 million in bonds outstanding considered defeased from the Proprietary Component Unit Fund, \$50.4 million from the Higher Education Fund, and \$14.1 million from the Governmental Component Unit Fund.

Arbitrage Rebate

The Tax Reform Act of 1986 requires that governmental entities issuing tax-exempt debt subsequent to August 1986, calculate and rebate arbitrage earnings to the Federal government. The U. S. Treasury has issued regulations on calculating the rebate amount and complying with the provisions of the Tax Reform Act of 1986. Governmental issuers must comply with the rebate regulations in order for their bonds to maintain tax-exempt status. The regulations require the excess of the aggregate amount earned on investments purchased with bond proceeds over the amount that would have been earned if the proceeds were invested at a rate equal to the bond yield, to be rebated to the Federal government. Income earned on excess earnings is also subject to rebate. Rebate payments, if required, are due at least once every five years over the life of the bonds. Some Commonwealth bonds may be exempt from the rebate requirements if they meet statutory exceptions per the regulations. Governmental issuers may also elect, on or before the date of the bond issue, to pay a penalty in lieu of rebate if they do not meet certain expenditure schedules. If such an election is made and if such issuer meets the expenditure schedule, the issuer retains any arbitrage earnings. Rebate and penalty payments are calculated and paid by the Commonwealth as required by law on bond issues that do not meet the statutory exceptions.

Bonds issued by the Virginia Public Building Authority and the Virginia College Building Authority are issued under Article X, Section 9(d) of the Constitution of Virginia. Any amounts remitted to the Federal government for rebate liability for bonds issued under Article X, Section 9(d) are paid from excess investment earnings or from project revenues and not from the general fund of the Commonwealth. During the year, the Commonwealth did not incur any rebate liability for bonds issued by these authorities; therefore, no payments were made to the Federal government.

In most cases, rebate liability on bonds of the Virginia Public School Authority (Component Unit) is payable from local issuers whose local school bonds were purchased by the VPSA. During the year, \$160,521 was paid to the Federal government for rebate on various VPSA School Financing Bonds.

Capital Leases

The Commonwealth leases buildings and equipment under various agreements that are accounted for as capital leases. The lease agreements are for various terms and all leases contain nonappropriation clauses indicating that continuation of the lease is subject to funding by the General Assembly.

Gross minimum lease payments, together with the present value of the net minimum lease payments as of June 30, 2000, were:

	Primary Government	Component Units	Total Reporting Entity
2001	\$ 25,619,981	\$ 4,481,754	\$ 30,101,735
2002	25,043,958	3,485,398	28,529,356
2003	23,840,657	3,525,390	27,366,047
2004	23,059,482	3,239,691	26,299,173
2005	22,304,195	3,139,815	25,444,010
After 2005	238,441,181	30,256,823	268,698,004
Total Gross Minimum Lease Payments	358,309,454	48,128,871	406,438,325
Less: Amount Representing Executory Costs	4,743,926	6,047	4,749,973
Net Minimum Lease Payments	353,565,528	48,122,824	401,688,352
Less: Amount Representing Interest	140,251,884	19,009,618	159,261,502
Present Value of Net Minimum Lease Payments	\$ 213,313,644	\$ 29,113,206	\$ 242,426,850

At June 30, 2000, fixed assets purchased under capital leases were included in property, plant, and equipment as follows. The amounts are net of accumulated depreciation where applicable. For a portion of these assets, ownership will pass to the Commonwealth at the end of the lease term.

Fund/Account Group	Buildings	Equipment	Total
Primary Government:			
General Fixed Assets Account Group	\$ 238,592,942	\$ 903,997	\$ 239,496,939

Proprietary Higher Education Fund	-	1,639,130	1,639,130
	31,400,218	9,883,229	41,283,447
Total Component Units	31,400,218	11,522,359	42,922,577
Total Capital Lease Assets	\$ 270,858,922	\$ 12,426,356	\$ 283,285,278

Notes Payable

Notes Payable consist of several items as shown in the following schedule (dollars shown in thousands):

Primary Government

Transportation Note (1)	\$	12,325
Installment Notes		26,672

Total Primary Government		38,997
---------------------------------	--	---------------

Component Units

Higher Education Notes		176,016
Virginia Housing Development Authority		28,340
Virginia Public School Authority		119,475
Installment Notes		28,009

Total Component Units		351,840
------------------------------	--	----------------

Total Notes Payable	\$	390,837
----------------------------	-----------	----------------

(1) Reflected in the General Long-Term Debt Account Group.

The Transportation (Primary Government) Note listed above represents an interest free note payable to Fairfax County, Virginia, of \$4,325,000 which was issued pursuant to the State Revenue Bond Act, Article 5, Title 33.1, Code of Virginia to pay for the acquisition and construction of the Omer L. Hirst - Adelard L. Brault Expressway. This note is to be repaid on December 1, 2008. Additionally, the Virginia Department of Transportation (Primary Government) entered into an interest free note payable to Chesterfield County, Virginia, of \$8,000,000 for the repayment of the Powhite Parkway Extension Toll Road from surplus net revenues of the project prior to the retirement of all the bonds issued.

The Higher Education (Component Unit) notes payable amount of \$176,016,000 is comprised primarily of promissory notes with the Virginia College Building Authority (VCBA) to finance the construction of various higher education facilities. The principal amount of \$172,575,000 with interest rates ranging from 3.15 percent to 6.0 percent shall be paid semi-annually. The final principal payment is due in 2019. Virginia State University has a note payable of \$2,818,317, which is the result of a loan agreement with the U.S. Department of Housing and Urban Development to repair seven dormitories. The loan is to be repaid over 30 years at 3.0 percent interest per annum, and is secured by a lien on the net revenues from the ownership, operation, and use of the seven dormitories under repair. Norfolk State University has a note payable of \$174,522, which is the result of an agreement with the City of Norfolk to purchase the Brambleton Center. The loan is payable in six full scholarships each year varying from \$4,953 to \$16,998 with the final amount due in 2019. Virginia Commonwealth University has a note payable of \$447,979, which relates to the liability associated with debt financed capital projects.

The Virginia Housing Development Authority (Component Unit) notes of \$28,340,000 are issued to refund certain outstanding bonds of the Authority. The notes bear a weighted average rate of 6.88 percent and have no fixed maturity date.

The Virginia Public School Authority (Component Unit) notes of \$119,475,000 are for the School Equipment Financing Notes Educational Technology program. The note proceeds were used to make grants to school divisions for the purchase of educational technology equipment. The notes will be repaid from appropriations to be made by the Virginia General Assembly from the Literary Fund.

Installment notes have been entered into by agencies and institutions of the Commonwealth. These agreements, other than those in the component units and certain institutions of higher education, contain nonappropriation clauses indicating that continuation of the installment note is subject to funding by the General Assembly. The General Long-Term Debt Account Group represents \$15,253,387 of the total. Presented in the following tables are repayment schedules for installment notes.

Installment Purchases - Primary Government

June 30, 2000

Maturity	Principal	Interest	Total
2001	\$ 11,452,698	\$ 1,039,954	\$ 12,492,652

Lottery Prizes Payable

Jackpot prizes of the Virginia Lottery are payable in 20, 25, or 26 annual installments. The first installment is paid on the day the prize is claimed. The present value of the outstanding jackpot prizes payable at June 30, 2000, is as follows:

	Balance
	June 30, 2000
Jackpot Prizes Payable:	
Due Within One Year	\$ 58,683,433
Due in Subsequent Years	720,356,567
Total	779,040,000
Less: Interest to Maturity	276,454,034
Net Present Value of Jackpot	
Prizes Payable	502,585,966
Other Prizes Payable	43,825,020
Total Lottery Prizes Payable	<u>\$ 546,410,986</u>

Medicaid Payable

Medicaid Payable represents services rendered but not billed by providers and potential liability resulting from cost reports not settled as of year-end. Providers subject to cost settlement are paid in the interim based on established per diem or diagnosis related group rates for services.

The Department of Medical Assistance Services (DMAS) estimates, based on past experience, the total amount of claims that will be paid from the Medicaid program in the future which relate to services provided before year end. At June 30, 2000, the estimated liability related to operations totaled \$301.5 million. Of this amount, \$145.7 million is reflected in the General Fund and \$155.8 million in the Federal Trust, Special Revenue Fund.

Children's Health Insurance Program Payable

DMAS estimates the total amount of claims that will be paid from the Children's Health Insurance program in the future which relate to services provided before year-end. At June 30, 2000, the estimated liability related to operations totaled \$2.6 million. Of this amount, \$0.9 million is reflected in the General Fund and \$1.7 million in the Federal Trust, Special Revenue Fund.

Tuition Benefits Payable

The Higher Education Tuition Trust Fund administers the Virginia Prepaid Education Program (VPEP) and the Virginia Education Savings Trust (VEST). VPEP offers contracts which, for actuarially determined amounts, provide for guaranteed full future tuition payments at State higher education institutions. The contract provisions also allow the benefits to be used for private or out-of-state institutions at a prorated amount based

upon the amounts charged by the State's higher education institutions. VEST is a savings trust investment option that allows participants to make an initial selection from among seven different investment portfolios. VEST accounts involve investment risk, including the possible loss of principal. Unlike VPEP, VEST is not backed by the Commonwealth of Virginia and investments are not guaranteed. Benefits may be used to pay for qualified higher education expenses, including tuition and fees, or the designated beneficiary at institutions nationwide.

At June 30, 2000, tuition benefits payable of \$401.3 million have been recorded for the VPEP program on the balance sheet for the actuarially determined present value of future obligations anticipated for payment of benefits and administrative expenses for the VPEP program. In addition, a receivable in the amount of \$162.9 million has been recorded to reflect the actuarially determined present value of future payments anticipated from contract holders.

At June 30, 2000, tuition benefits payable of \$21.8 million have been recorded for the VEST program on the balance sheet. This amount represents the market value of the pooled assets available to contributors in the program's seven portfolios. In the VEST program, contributions are recorded and distributions are valued to participant accounts based upon a daily net asset value calculated by the program's custodial bank.

Tax Refunds Payable

Tax refunds payable represent refunds due on individual tax returns filed for the calendar year ended December 31, 1999, and on business tax returns filed for corporate fiscal years ending on or before June 30, 2000. The individual tax return filing deadline is May 1 of each year for the preceding calendar year. The corporate tax return filing deadline is the 15th day of the fourth month following the close of the corporate fiscal year.

Car Tax Refund Payable

During the year ended June 30, 1998, the General Assembly passed the Personal Property Tax Relief Act. Under the terms of this legislation, the Commonwealth will assume financial responsibility for the personal property taxes assessed by localities over a five-year period beginning in 1998. The amount reported on the balance sheet represents 47.5 percent of the 2000 personal property taxes assessed by the localities before June 30, 2000, and paid by the Commonwealth after June 30, 2000.

The balance of Other Liabilities is spread among various other funds.

21. OTHER REVENUE

The following table (reported in thousands of dollars) summarizes Other Revenue as of June 30, 2000.

	Primary Government

Total Other Non-Operating Revenue/Expenses	\$ 820	\$ 1,451	\$ 2,271	\$ 9,030	\$ 11,301

26. APPROPRIATION ACT TRANSFERS

Chapter 1072, 2000 Acts of Assembly, requires certain amounts to be transferred to the General Fund during the year from the nongeneral funds. Some of these transfers are to reimburse the General Fund for expenses incurred on behalf of those nongeneral funds. Other transfers are mandated in order to shift amounts from nongeneral funds to the General Fund. These Appropriation Act transfers are included in Operating Transfer activity. Following is a schedule of the major items that make up Appropriation Act Transfers (dollars in millions):

	Amount Transferred
Lottery Profits	\$ 324.3
ABC Profits	41.4
Contract Prisoners Special Revenue Fund	21.4
DGS Excess Reserves	14.5
Public School Literary Fund	10.9
DMHMRSAS Excess Revenues	6.9
Central Services Agencies	6.9
Chesapeake Bay Improvement	5.9
Other Transfers	5.3
Total Appropriation Act Transfers	\$ 437.5

27. SEGMENT/CONDENSED FINANCIAL INFORMATION

Segment financial information for the Commonwealth's Enterprise Funds and condensed financial information for the Commonwealth's discretely presented component units are presented in the following schedules:

28. CONTRIBUTED CAPITAL

Primary Government

Contributed capital is created when a residual equity transfer is received by a proprietary fund, when a general fixed asset is "transferred" to a proprietary fund, or when a grant is received that is externally restricted to capital acquisition or construction.

Contributed capital of the Enterprise Funds totaled approximately \$3.7 million. The Department of Alcoholic Beverage Control's (ABC's) contributed capital of \$1.6 million represents the total withheld from ABC profits. Virginia Industries for the Blind (VIB) reported \$1.7 million in contributed property and equipment. The Consolidated Laboratory reported \$340,000 and the State Parks Foundation – Other Enterprise Funds reported \$25,000 to provide funding for start-up expenditures.

Contributed capital of the Internal Service Funds totaled approximately \$6.1 million. Correctional Enterprises' contributed capital of \$5.8 million represents \$1.6 million in General Fund appropriations and \$4.2 million in contributed property and equipment. Information Technology's contributed capital of \$251,000 consists of \$34,000 in contributed equipment and \$217,000 of net assets transferred from their Special Revenue Fund.

Component Units

Seven component units reported contributed capital. The Virginia Port Authority reported \$3.6 million in contributed property and equipment and \$5.3 million in cash to fund equipment acquisitions, undertake construction and perform other actions that the VPA has historically undertaken at the terminals.

The Virginia Resource Authority's contributed capital consists of \$66.6 million in transfers from the Commonwealth to fund the Virginia Water Facilities Revolving Fund and \$393.2 million from the Environmental Protec-

tion Agency of the U.S. Government under the Capitalization Grants for State Revolving Funds Federal assistance program. The property and equipment in each fund is recorded at historical cost.

The Hampton Roads Sanitation District Commission reported contributed capital of \$225.9 million. This arises primarily from the United States Environmental Protection Agency and the Virginia Department of Environmental Quality construction grants, and is recognized as contributed capital when eligible expenditures have been made.

The Virginia Biotechnology Research Park Authority reported \$11.5 million in contributed capital. The Authority reported \$5.2 million in contributed capital to fund Phase I of the construction costs of the building to be utilized by the Authority. Virginia Commonwealth University contributed property worth \$3.8 million and \$2.5 million in cash was received from other sources.

The Medical College of Virginia Hospitals Authority reported \$311.8 million in contributed capital. The Authority reported \$306.0 million in contributed capital from the Virginia Commonwealth University and \$5.8 million in contributed property and buildings.

The Small Business Financing Authority reported \$1.0 million in contributed capital to provide backup for the Guaranteed Loan Program.

The Virginia Equine Center Foundation – Other Component Units reported \$5.4 million in contributed capital from the Commonwealth and \$1.3 million from other sources. Contributions from the Commonwealth are restricted to use for construction. By legislation, the General Assembly expressed its intent that no present or future appropriations be expended for operational costs of the Center.

29. CHANGE IN ACCOUNTING PRINCIPLE

Primary Government

During fiscal year 2000, the Higher Education Tuition Trust Fund (Enterprise Fund) elected to change the method of accrual used to report the Fund's liability for tuition benefits payable and began accruing receivables for future payments anticipated to be made into the Virginia Prepaid Education Program. The Fund elected to accrue a receivable that reflects the actuarially determined present value of future payments anticipated to be made to the fund by account owners over a period of one to eighteen years. The fund also elected to accrue a liability that reflects the actuarially determined present value of future payments anticipated to be made from the fund to the current enrollment group over a period of one to twenty-four years. In previous years, the Fund recorded a liability for the contributions made to the program which were refundable to the participants upon request.

The cumulative effect of this change in accounting principle on retained earnings at the beginning of the year is an increase of \$39,925,448. An additional effect of this change was to increase operating revenues by \$71,715,736 and operating expenses by \$68,285,500 in the accompanying Statement of Revenues, Expenses and Changes in Retained Earnings (or Equity) for the year ended June 30, 2000.

Component Units

Effective July 1, 1999, the Virginia Port Authority (VPA) (Proprietary Fund) adopted AICPA Statement of Position 97-3, "Accounting by Insurance and Other Enterprises for Insurance-Related Assessments." As a result of this change, VPA was required to accrue a liability for probable insurance-related assessments based upon its participation in the U.S. Department of Labor's Second Injury Fund.

The cumulative effect of this change in accounting principle on retained earnings at the beginning of the year is as follows:

Accrued Department of Labor Assessment	\$ 980,000
Accrued Department of Labor assessment, noncurrent portion	<u>6,822,000</u>
Decrease in retained earnings, Beginning of year	<u>\$ 7,802,000</u>

The effect of this change was to decrease operating expenses by \$350,000 in the accompanying Statement of Revenues, Expenses and Changes in Retained Earnings (or Equity) for the year ended June 30, 2000.

30. CHANGE IN ACCOUNTING ESTIMATE

During the year ended June 30, 2000, the Virginia Port Authority (VPA) (Proprietary Fund) (Component Unit) changed its method of estimating its future liability for workers' compensation claims arising from injuries during its prior periods of self-insurance. Prior to July 1, 1999, these claims were handled by an outside administrator who provided an estimate of the Authority's future liability. During the year ended June 30, 2000, the administration of these claims was brought in-house. Concurrent with the adoption of SOP 97-3 (see Note 29), VPA developed an estimate of the liability based upon each claimant's estimated future payment stream and expected longevity. The total liability was discounted using a rate of 8.0 percent. The undiscounted liability totaled approximately \$8,370,000 at June 30, 2000. This change in accounting estimate resulted in a one-time charge to worker's compensation expense of an additional \$3,548,000 for the year ended June 30, 2000.

31. RESTATEMENT OF BEGINNING FUND BALANCES

The restatements required to correct prior year errors resulted from the following:

- The motor fuels tax receivable was reported in the Other – Special Revenue Fund in prior years, but should have been reported in the Expendable Trust Fund.
- The Department of Mental Health, Mental Retardation, and Substance Abuse Services reported an endowment as an Expendable Trust Fund in prior years. The endowment should have been reported as a Nonexpendable Trust Fund.
- The Virginia Retirement System reported optional life insurance as part of the Postemployment Group Life – Pension Trust Fund in the prior year. The optional life insurance was reported as an Agency Fund in the current year, resulting in the restatement of fund balance for the Pension Trust Fund.

The restatement required pursuant to GASB Statement No. 14, *The Financial Reporting Entity*, resulted because the primary government is recognizing the Virginia School for the Deaf and Blind Foundation as a component unit. This entity has not been included in previous years.

33. DEFICIT RETAINED EARNINGS – GAAP BASIS

The State Lottery Department ended the year with a deficit retained earnings of \$952,753. This was solely attributable to the net pension obligation resulting from GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*. Since the Commonwealth is the employer, the Lottery does not report this liability in their individually published financial statements.

The Department of Alcoholic Beverage Control ended the year with a deficit retained earnings of \$3.1 million. This is attributable to a deficit in beginning Retained Earnings and the net pension obligation resulting from GASB Statement No. 27 as explained in the previous paragraph.

The Pocahontas Parkway Association ended the year with a deficit retained earnings balance of \$13.1 million. This is attributable to debt service and operating ex-

penses exceeding revenues and a deficit in beginning retained earnings.

The Risk Management, Internal Service Fund ended the year with a deficit retained earnings of \$114.7 million. The deficit was the result of estimated claims payable exceeding the available equity in the fund. Claims are paid on a pay-as-you-go basis. To the extent that claims exceed current resources, they will ultimately become a liability of the fund from which the claim originated.

The Virginia Equine Center Foundation (Component Unit – Other) ended the year with deficit retained earnings of \$2.7 million. The operation of the Center, along with the fund raising activities of the Foundation are intended to provide sufficient cash flows to be self-sustaining. The Foundation is dependent upon charitable giving. To date, these cash flows have been insufficient to fully support the Center.

34. CASH FLOWS – ADDITIONAL DETAILED INFORMATION

The following table (reported in thousands) summarizes specific cash flows as of June 30, 2000.

	<u>Enterprise</u>	<u>Internal Service</u>	<u>Nonexpendable Trust</u>	<u>Proprietary Component Units</u>	<u>Total</u>
Cash Flows Resulting from:

35. ON-BEHALF PAYMENTS - HIGHER EDUCATION (COMPONENT UNIT)

Higher Education recognized various foundation and association on-behalf payments for fringe benefits and salaries during fiscal year 2000 totaling \$1,621,679. This activity was recorded in Current Funds as Other Sources in the amount of \$1,371,679 and Auxiliary Enterprises Revenue in the amount of \$250,000, with a corresponding expenditure.

36. CONTINGENCIES

A. Grants and Contracts

The Commonwealth has received Federal grants for specific purposes that are subject to review and audit by the grantor agencies. Claims against these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable Federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from a Federal audit may become a liability of the Commonwealth.

Institutions of higher education (Component Units) and other State agencies are required to comply with various Federal regulations issued by the Office of Management and Budget, if such agencies are recipients of Federal grants, contracts, or other sponsored agreements. Failure to comply with certain requirements of these regulations may result in questions concerning the allowability of related direct and indirect charges pursuant to such agreements. It is believed that the ultimate disallowance pertaining to these regulations, if any, will be immaterial to the overall financial condition of the Commonwealth.

The U. S. Department of Health and Human Services' (DHHS) Office of the Inspector General conducted a review and indicated that the Commonwealth's Statewide Indirect Cost Allocation Plan rates have allowed over-recoveries in the Internal Service Funds. The Department of Accounts filed an appeal with the Departmental Appeals Board. In that appeal, the Commonwealth proposed an alternative methodology for determining over-recoveries. The U. S. DHHS agreed to a review of this methodology.

On April 12, 2000 the Commonwealth and the Division of Cost Allocation (DCA) reached an agreement on the full and final settlement for a total of \$10.6 million for fiscal years 1993 through 1997. The settlement included the Federal financial participation (FFP) in the principal and interest amounts relating to appropriation transfers and over-billings for internal service funds. The two parties also reached agreement to use Virginia's proposed methodology for settlement of appropriation transfers and over-recoveries for fiscal years 1998 through 2000.

On May 15, the Department of Accounts received approval of its fiscal year 2000 cost allocation plan

from the DCA. This plan is based on state fiscal year 1998 data. The approval referenced the agreed upon methodology for returning the federal share of over-recoveries and transfers to the general fund for fiscal year 1998 that amounted to \$1.7 million, and was paid in July 2000. The U. S. DHHS has not yet audited the fiscal year 2001 cost allocation plan, which is based on state fiscal year 1999 data. The Commonwealth believes this liability has the potential to total \$2.2 million as of June 30, 2000.

Virginia's combined overpayment and underpayment food stamp error rate for fiscal year 1999 was 11.85 percent. The national average combined error rate was 9.88 percent. States whose error rate exceeds the national average are subject to a penalty. Since Virginia's combined error rate exceeds the national average; the Commonwealth is subject to a cumulative potential liability of \$13.1 million. Virginia has chosen to settle this potential liability by investing in food stamp program improvement activities as allowed by the food stamp program. Payment of the \$13.1 million is contingent upon the level of payment accuracy the Commonwealth achieves during the period beginning October 1, 1997 through September 30, 2000.

B. Litigation

The Commonwealth is named as a party in legal proceedings and investigations that occur in the normal course of governmental operations, some involving substantial amounts. It is not possible at the present time to estimate ultimate outcome or liability, if any, of the Commonwealth in respect to the various proceedings; however, it is believed that any ultimate liability resulting from these suits or investigations will not have a material, adverse effect on the financial condition of the Commonwealth.

37. SUBSEQUENT EVENTS

Primary Government

Effective July 1, 2000, the Department of General Services no longer administers the Division of Risk Management that is reported in the Risk Management – Enterprise Fund and Risk Management – Internal Service Fund. The Department of Personnel and Training assumed administration of the worker's compensation insurance coverage. The Department of Treasury assumed administration of all other insurance coverage. These organizational changes had no substantive impact on the risk management program.

In November 2000, the Virginia Department of Transportation issued \$375,000,000 in Federal Highway Reimbursement Anticipation Notes (Notes), Series 2000. Net proceeds will be used to finance a portion of various construction projects. Repayment of these Notes will be from appropriations of future cost reimbursements and payments received from the Federal Highway Administration for Federal-aid projects.

Component Units

Effective July 1, 2000, the Commonwealth, with the concurrence of the Virginia Commonwealth University Board of Visitors, renamed the Medical College of Virginia Hospitals Authority (Component Unit - Proprietary) as the Virginia Commonwealth University Health System Authority (VCUHSA). Concurrently, the Virginia Commonwealth University Health System (VCUHS) was created. The VCUHS will combine the separate corporate entities of the VCUHSA and the Medical College of Virginia (MCV) Physicians with the Virginia Commonwealth University (VCU) (Component Unit – Higher Education) into a unified governance system. Financial statements issued subsequent to June 30, 2000, will include the financial activity of the VCUHSA and MCV Physicians as components of the VCU (Component Unit – Higher Education). As of June 30, 2000, the Commonwealth's financial statements do not reflect the MCV Physicians' assets of \$59.5 million, liabilities of \$21.1 million, revenues and other additions of \$132.7 or expenses and other deductions of \$132.5 million.

Subsequent to year-end, the Virginia Resources Authority closed a \$6,490,000, 3.5 percent non-interest bearing loan with the Hampton Roads Sanitation District; an \$862,184 non-interest bearing loan with the Tazewell County Public Service Authority; and a \$1,489,480 non-interest bearing loan with the Tazewell County Public Service Authority.

In August 2000, the Virginia Housing Development Authority sold \$64,385,000 Rental Housing Bonds, 2000 Series C/D/E.

In October 2000, the Virginia Resources Authority issued \$4,640,000 in Sewer System Revenue Bonds, Series 2000.

In November 2000, the Virginia Resources Authority issued \$106,685,000 in Clean Water State Revolving Fund Revenue Bonds, Series 2000.

In November 2000, the Virginia College Building Authority issued \$83,010,000 in Educational Facilities Revenue Bonds (Public Higher Education Financing Program), Series 2000A to finance capital projects at various higher education institutions.

In November 2000, the Virginia Public School Authority issued \$106,200,000 in School Financing Bonds (1997 Resolution), Series 2000B to purchase local school bonds to finance capital projects for public schools.

38. TOBACCO SETTLEMENT

On November 23, 1998, 46 states' Attorneys General and the major tobacco companies signed a proposed settlement that reimburses states for smoking-related medical expenses paid through Medicaid and other health care programs. Virginia could receive approximately \$4.1 billion over the next 25 years. The settlement was approved in a Consent Decree in December 1998. On March 29, 1999 the General Assembly enacted a law approving the establishment of a Commission, in compliance with the Consent Decree, to help communities in Virginia hurt by the decline of tobacco.

The Commission is established for the purposes of determining the appropriate recipients of moneys in the Tobacco Indemnification and Community Revitalization Fund. The moneys are to be used to provide payments to tobacco farmers as compensation for the tobacco equipment and barns and lost tobacco production opportunities associated with a decline in quota. The moneys are also to be used to revitalize tobacco dependent communities.

Additionally, the General Assembly created two special non-reverting funds. The Tobacco Settlement monies will be deposited to these funds and the General Fund. Fifty percent of the Settlement monies will be deposited into the Tobacco Indemnification and Community Revitalization Fund. Ten percent of the Settlement monies will be deposited into the Virginia Tobacco Settlement Fund. The remaining 40 percent will be deposited to the General Fund.

The General Assembly also created The Virginia Tobacco Settlement Foundation (Foundation). The purpose of the Foundation is to determine the appropriate recipients of monies in the Virginia Tobacco Settlement Fund. The Foundation will also be responsible for distributing monies for the purposes provided in the legislation. Disbursements can be made to assist in financing efforts to restrict the use of tobacco products by minors, through educational and awareness programs describing the health effects of tobacco use on minors, and laws restricting the distribution of tobacco products to minors. The Virginia Tobacco Commission and the Virginia Tobacco Settlement Foundation are included in the Comprehensive Annual Financial Report as governmental component units.

Notes for Claims Development Information Tables

The tables on the following pages illustrate how the Risk Management and Health Care Claims Funds earned revenues (net of reinsurance) and investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Funds as of the end of each of the past several years. The rows of the tables are defined as follows:

1. This line shows the total of each fiscal year's gross earned contribution revenue and investment revenue, contribution revenue ceded to reinsurers, and net earned contribution revenue and reported investment revenue.
2. This line shows each fiscal year's other operating costs of the Funds, including overhead and claims expense not allocable to individual claims.
3. This line shows the Funds' gross incurred claims and allocated claim adjustment expenses, claims assumed by reinsurers, and net incurred claims and adjustment expenses (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred (called policy year).
4. This section of rows shows the cumulative net amounts paid as of the end of successive years for each policy year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each accident year.
6. This section of rows shows how each policy year's net incurred claims increased or decreased as of the end of successive years. (This annual reestimation results from new information received on known claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known.)
7. This line compares the latest reestimated net incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of net claims cost is greater or less than originally thought. As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of net incurred claims currently recognized in less mature policy years.

The columns of the tables show data for successive policy years.

Notes:

- (a) During fiscal year 1997, the Commonwealth implemented GASB Statement No. 30, *Risk Financing Omnibus*. The Commonwealth has no reinsurers; therefore, the ceded amounts on lines 1, 3, and 5 are zero.

Combining and Individual Fund and Account Group Statements and Schedules

Special Revenue Funds

Special Revenue Funds account for specific revenue sources that are restricted to finance particular functions and activities of the Commonwealth.

The Commonwealth Transportation Fund accounts for the revenues and expenditures associated with highway operations, maintenance, construction, and other transportation related activities. Funding for these programs is provided from highway user taxes, fees, and funds received from the Federal government.

The Federal Trust Fund accounts for all federal dollars received by the Commonwealth except those received by the Commonwealth Transportation Fund, the Unemployment Compensation Trust Fund, and institutions of higher education.

The Literary Fund accounts for revenues from fines, forfeitures, and proceeds from unclaimed property used primarily to support public education in the Commonwealth. This fund provides low interest loans to school divisions for construction, renovations, and expansion of school buildings.

The Dedicated Special Revenue Fund accounts for revenues and expenditures associated with specific activities aimed at improving and protecting the environment.

The Other Special Revenue Fund accounts for revenues and expenditures related to local health care assistance, business and agricultural activities, and miscellaneous activities throughout the Commonwealth.

Virginia Public Building Authority Fund accounts for the receipt and disbursement of bond proceeds issued under the 1997 Master Indenture of Trust for the acquisition, construction, and operation of public buildings used by the Commonwealth and its political subdivisions.

Debt Service Funds

The Debt Service Funds account for transactions related to resources retained and used for the payment of interest and principal on long-term obligations recorded in the General Long-Term Debt Account Group.

Primary Government accounts for the payment of principal and interest on bonds used to acquire, construct, or improve parks, highways, and correctional, mental health, and parking facilities owned by the Commonwealth.

The Virginia Public Building Authority accounts for the payment of principal and interest on bonds used to acquire, construct, and operate public buildings used by the Commonwealth and its political subdivisions.

Capital Project Funds

The Capital Project Funds are maintained to account for resources received and used for the acquisition, construction, or improvement of capital facilities not reported in the other governmental or proprietary funds.

Primary Government accounts for the financial resources used to acquire, construct, or improve parks and correctional, mental health, and parking facilities owned by the Commonwealth.

The Virginia Public Building Authority accounts for financial resources used to acquire, construct, and operate public buildings used by the Commonwealth and its political subdivisions.

Enterprise Funds

The Enterprise Funds account for operations that are financed and operated in a manner similar to private business enterprises. It is the intent that the cost of providing such goods or services will be recovered through user charges.

The State Lottery Department accounts for all receipts and expenses from the operations of the State Lottery.

The Department of Alcoholic Beverage Control operates facilities for the distribution and sale of distilled spirits and wine.

Risk Management accounts for pooled resources received and used by the Department of General Services for financing local government insurance programs. This includes Local Entities Bond Insurance, Public Officials Insurance, Law Enforcement Insurance, and Commuter Rail Insurance.

The Local Choice Health Care Program, directed by the Department of Personnel and Training, administers a health care plan for the employees of participating local governments.

The Virginia Industries for the Blind manufactures products for sale to governments, certain private organizations, and the general public.

The Consolidated Laboratory provides drinking water testing services and a newborn screening program.

The Higher Education Tuition Trust Fund administers the Virginia Prepaid Education Program and the Virginia Education Savings Trust.

The Department of Environmental Quality accounts for the Title V program that offers services to the general public.

The Pocahontas Parkway Association accounts for the Route 895 Connector Project. The Association is a blended component unit of the Department of Transportation (Primary Government).

Other includes:

- **Virginia Museum of Fine Arts**, which accounts for gift shop and food service activities;
- **Division of Legislative Services**, which accounts for sales of the Virginia Register, a publication which lists all proposed and final state agency regulations;
- **Science Museum of Virginia**, which accounts for gift shop activities;
- **Virginia Historic Preservation Foundation**, which acquires and sells properties of historical significance;
- **Virginia State Parks Foundation**, which solicits gifts and grants for the benefit of state parks; and,
- **Virginia School for the Deaf and Blind – Staunton**, which accounts for the Student Center activity.

Internal Service Funds

Internal Service Funds account for the operations of State agencies that render services to other State agencies, institutions, or other governmental units of the Commonwealth on a cost-reimbursement basis.

Department of Information Technology accounts for the installation and maintenance of the State government's telephone system; the development, use and maintenance of the Commonwealth's data processing systems; and the development of automated systems.

Virginia Correctional Enterprises accounts for the manufacturing activities of the State's correctional facilities.

Health Care accounts for the health insurance programs provided to State employees.

Division of Fleet Management accounts for the Commonwealth's motor vehicle pool.

Maintenance and Repair accounts for services outside the scope of normal maintenance or custodial services provided to agencies by the Bureau of Facilities Management.

Central Warehouse accounts for supplies purchased for and used by State agencies.

Risk Management accounts for the insurance programs provided to State agencies and institutions.

Virginia Sickness and Disability accounts for the income protection provided to State employees for absences caused by sickness or disability.

Other includes:

- **State Surplus Property**, which accounts for the transfer and sale of State-owned surplus property;
- **Federal Surplus Property**, which accounts for the transfer and sale of Federally-owned surplus property;
- **The Office of Graphic Communications**, which accounts for the Commonwealth's graphic design division;
- **The Consolidated Laboratory**, which accounts for the Commonwealth's water testing services; and,
- **Property Disposal Service**, which accounts for the disposal of State-owned property.

Trust and Agency Funds

Pension Trust Funds

Pension Trust Funds reflect the activities of the retirement systems and postemployment benefits administered by the Virginia Retirement System (VRS) for the Commonwealth.

The Virginia Retirement System provides retirement benefits to Commonwealth employees and teachers.

The State Police Officers' Retirement System provides retirement benefits to Virginia state police officers.

The Judicial Retirement System provides retirement benefits to the Commonwealth's judiciary.

The Virginia Law Officers' Retirement System provides retirement benefits to correctional officers, capital police officers, university police officers, and game wardens.

Political Appointees provides optional retirement benefits to selected officials and administrative staff.

Retiree Health Insurance Credit Post Employment Benefit Fund accounts for the State provided health insurance credits which offset a portion of the retirees' monthly insurance premiums.

Group Life Insurance Post Employment Benefit Fund provides life insurance coverage to members of the retirement systems.

Investment Trust Funds

Investment Trust Funds reflect the external portions of the investment pools sponsored by the Commonwealth.

Local Government Investment Pool (LGIP) helps local governmental entities maximize their rate of return by commingling their resources for investment purposes.

Virginia State Non-Arbitrage Program (SNAP) provides investment vehicles for local governmental entities to invest bond proceeds to ensure compliance with the Internal Revenue Code of 1986, as amended.

Individual Investment Accounts represent the aggregate activity of SNAP accounts which are established for specific local governmental entities.

Nonexpendable Trust Funds

Nonexpendable Trust Funds are funds whose principal must remain intact.

Commonwealth Health Research Fund provides financial grants for human health research benefiting the Commonwealth's citizens.

Mental Health Endowment Funds provide funds for the welfare of patients in mental health facilities.

Expendable Trust Fund

An Expendable Trust Fund is one whose principal and income may be expended in the course of its designated operations.

Expendable Trust includes unemployment funds, unclaimed property receipts, and funds used for educational programs at museums.

Agency Funds

Agency Funds report those funds for which the State acts solely in a custodial capacity. A description of the funds is presented below.

Funds for the Collection of Taxes and Fees account for taxes and fees collected by the Commonwealth to be distributed to localities or other states. The beginning balance of this fund was restated by \$2.1 million due to a prior year error.

Employee Benefits Fund accounts for undistributed withholdings for employee benefits.

Mined Land Deposits Fund accounts for reimbursable deposits, including both cash and securities, from mining companies to ensure reclamation of mined lands.

Deposits of Insurance Carriers Fund accounts for security deposits of insurance carriers as protection to the policy holders of the Commonwealth.

Inmate and Ward Trust Fund accounts for the savings of inmates and wards of the Departments of Corrections and Juvenile Justice.

Child Support Collections Fund accounts for court-ordered child support payments that flow through the Department of Social Services.

Mental Health Patient Trust Fund accounts for the savings of patients in the Commonwealth's mental health facilities.

Optional Life Insurance Fund accounts for optional life insurance payments collected from employees as a supplement to the state's basic life insurance plan. The beginning balance of this fund has been restated by \$4.8 million due to a prior year error.

Comptroller's Debt Setoff Fund accounts for monies withheld from vendors to offset debts owed the Commonwealth by those vendors. In previous years, this fund was reported in Miscellaneous.

Miscellaneous Funds include:

- **Federal Aviation Fund**, which accounts for federal monies received by the Commonwealth to reimburse localities for the expansion and improvement of airport systems;
- **Legal Settlement Fund**, which accounts for receipts from court judgments that are deposited and subsequently distributed to the appropriate injured parties;
- **Milk Commission Fund**, which accounts for deposits of farmers to offset delivery expenses and losses incurred;
- **Woodrow Wilson Rehabilitation Center**, which accounts for funds for students;
- **Virginia School for the Deaf and the Blind**, which accounts for funds used to establish new activities for students;
- **Virginia Department of Transportation**, which accounts for funds used for transportation conferences;
- **Department of Agriculture and Consumer Services**, which accounts for funds used for consumer protection; and,
- **Department of State Police**, which accounts for assets seized in drug raids.

Component Units

Component Units are organizations that are legally separate from the Commonwealth of Virginia. Each discrete Component Unit serves or benefits those outside of the primary government.

Governmental Fund

The Virginia Port Authority is empowered to maintain and operate Virginia's harbors and ports.

The Virginia Economic Development Partnership works to enhance and increase the Commonwealth's commerce and trade.

Virginia Outdoors Foundation promotes preservation and fund raising for the purchase of preservation land.

Virginia Tourism Authority promotes tourism and film production industries of the Commonwealth.

Virginia Tobacco Settlement Foundation determines the appropriate recipients of moneys in the Virginia Tobacco Settlement Fund.

Tobacco Indemnification and Community Revitalization Commission determines the appropriate recipients of moneys in the Tobacco Indemnification and Community Revitalization Fund.

Virginia School for the Deaf and Blind Foundation operates exclusively for the benefit of the Virginia Schools for the Deaf and Blind.

Proprietary Funds

The Virginia Housing Development Authority provides investment in and stimulates construction of low to moderate income housing for the citizens of the Commonwealth.

The Virginia Port Authority operates marine and inland terminals in Newport News, Norfolk, Portsmouth, and Front Royal, Virginia.

The Virginia Resources Authority provides financing for the construction of local water supply and wastewater treatment facilities and other local infrastructure projects.

The Virginia Public School Authority provides financing for capital construction of primary and secondary schools to cities and counties.

The Hampton Roads Sanitation District Commission operates a sewage system for 13 localities in the Chesapeake Bay Area.

The Virginia Biotechnology Research Park Authority assists in the development of a biotechnology research park.

The Medical College of Virginia Hospitals Authority operates the Medical College of Virginia Hospitals and provides graduate medical education.

The Small Business Financing Authority assists small businesses in the Commonwealth in obtaining financing for new businesses or the expansion of existing businesses.

Wireless E-911 Service Board assists in the establishment of wireless E-911 service in Virginia localities.

Other includes:

- **The A. L. Philpott Manufacturing Extension Partnership**, which promotes industrial expansion by providing consulting services to manufacturers; and,
- **The Virginia Equine Center Foundation**, which operates the Equine Center for the benefit of the equine industry.

The Higher Education Fund accounts for the resources received and used in the operation of the Commonwealth's institutions of higher education and medical teaching hospitals.

Included in this Fund are:

The College of William & Mary, including Richard Bland College and the Virginia Institute of Marine Science
University of Virginia, including the University of Virginia College at Wise (formerly reported as Clinch Valley College), and the University of Virginia Hospital
Virginia Polytechnic Institute and State University
Virginia Military Institute
Virginia State University
Norfolk State University
Mary Washington College
James Madison University
Radford University

Old Dominion University
Virginia Commonwealth University
George Mason University
Virginia Community College System

Also included are Nonmajor Component Units:
Christopher Newport University
Virginia College Building Authority
Innovative Technology Authority
Southwest Virginia Higher Education Center
Roanoke Higher Education Authority
Longwood College

General Fixed Assets Account Group Schedules

The General Fixed Assets Account Group accounts for the land, buildings, improvements, and equipment of the Primary Government's governmental funds. Fixed assets of the proprietary fund types and similar trust funds are accounted for within those funds. Fixed assets of all discrete component units are accounted for within those funds.

Schedule of General Fixed Assets by Category and Source

June 30, 2000

(Dollars in Thousands)

General Fixed Assets:

Land	\$ 236,338
Buildings	2,041,162
Equipment	850,235
Improvements Other Than Buildings	165,337
Construction in Progress	184,952
Total General Fixed Assets	<u>\$ 3,478,024</u>

Investments in General Fixed Assets From:

Capital Lease Obligations	\$ 239,497
General Obligation Bonds	139,292
Federal Grants	76,051
General Fund Revenues	942,123
Special Revenue Fund Revenues	857,165
Virginia Public Building Authority Funds	1,106,409
Gifts and Donations	48,220
Local Funds	4,779
Other Funds	64,488
Total Investment in General Fixed Assets, at Cost	<u>\$ 3,478,024</u>

STATISTICAL SECTION

The financial presentations included in this section provide comparisons of economic and social characteristics and financial trends over a ten-year period. The statistical data presented are intended to give users of the financial statements, as well as the investment community, a better historical perspective and assessment of the current financial status and trends of the Commonwealth.

Statistical schedules related to property taxes are not presented since the Commonwealth does not assess property taxes.

Computation of Legal Debt Limit and Margin

For Revenues Collected Through June 30, 2000

(Dollars in Thousands)

	Fiscal Year Ended June 30,		
	2000	1999	1998
Tax Revenues Required for Computation			
Taxes on Income and Retail Sales:			
Individual and Fiduciary Income Tax and Estate Tax [1]	\$ 6,829,587	\$ 6,087,888	\$ 5,405,850
Corporate Income Tax [2]	565,909	420,421	450,780
State Sales and Use Tax [3]	2,201,533	2,065,265	1,919,216
Total	<u>\$ 9,597,029</u>	<u>\$ 8,573,574</u>	<u>\$ 7,775,846</u>
Average Tax Revenues for the Three Fiscal Years			<u>\$ 8,648,816</u>
Section 9(a)(2) General Obligation Debt Limit [4]			
Debt Limit (30% of 1.15 times annual tax revenues for fiscal year 2000)			\$ 3,310,975
Less Bonds Outstanding:			-
Debt Margin for Section 9(a)(2) General Obligation Bonds			<u>\$ 3,310,975</u>
Section 9(b) General Obligation Debt Limit			
Debt Limit (1.15 times average tax revenues for three fiscal years as calculated above)			\$ 9,946,139
Less Bonds Outstanding:**			
Public Facilities Bonds	\$ 460,405		
Transportation Facilities Refunding Bonds [6]	60,300		
Bond Anticipation Notes	-		520,705
Debt Margin for Section 9(b) General Obligation Bonds			<u>\$ 9,425,434</u>
Additional Section 9(b) Debt Borrowing Restriction:			
Four-year Authorization Restriction (25% of 9(b) Debt Limit)			\$ 2,486,535
Less 9(b) Debt authorized in past three fiscal years			-
Maximum Additional Borrowing Restriction (amount that could be authorized by the General Assembly)			<u>\$ 2,486,535</u>
Section 9(c) General Obligation Debt Limit			
Debt Limit (1.15 times average tax revenues for three fiscal years as calculated above)			\$ 9,946,139
Less Bonds Outstanding:**			
Parking Facilities Bonds	\$ 11,010		
Transportation Facilities Bonds [5]	134,144		
Higher Educational Institution Bonds [5]	380,332		
Bond Anticipation Notes	-		525,486
Debt Margin for Section 9(c) General Obligation Bonds			<u>\$ 9,420,653</u>

**Bonds included on this schedule are only those which are backed by the full faith and credit of the Commonwealth.

(1) Includes taxes imposed pursuant to Articles 2 and 9 of Chapter 3, Title 58.1 of the *Code of Virginia*.

(2) Includes taxes imposed pursuant to Article 10 of Chapter 3, Title 58.1 of the *Code of Virginia*.

(3) Includes taxes imposed pursuant to Chapter 6, Title 58.1 of the *Code of Virginia*, less taxes identified in Sections 58.1-605 and 58.1-638.

(4) Debt limit applies only to debt authorized pursuant to Article X, Section 9(a)(2) of the *Constitution of Virginia*.

(5) Net of unamortized discount.

(6) These bonds refunded certain Section 9(c) debt, and because the Governor did not certify the feasibility of the refinanced project, it must be applied against the Section 9(b) Debt Limit.

- (1) Under Unclaimed Property law, the Commonwealth receives abandoned securities and tangible personal property. These are not introduced into the accounting system until converted to cash. As of June 30, 2000, securities with a market value of approximately \$51 million and 9,753 inventoried lots of unappraised tangible property were in the Treasurer's custody. The Treasurer is custodian of these items until claimed by the rightful owners or heirs, except that the Treasurer can and does periodically convert these items into cash.
- (2) Total available funds represent the beginning balance plus receipts minus amounts carried forward into the next fiscal year.
